Summary

kDnF Live Server patch from December 27th added Operation: Hope, a free roam dungeon where you can farm Abysmal Legendary equipment sets, designed to replace current Buff Swap setups (Tradable Legendary + Chronicle Set + Tainted Dimensional Equipment with Green Aura effect).

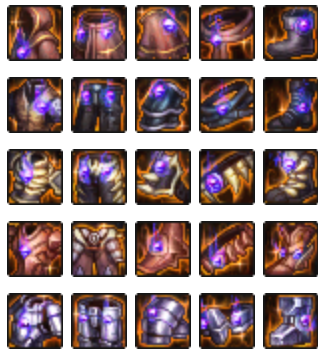

You can run Operation: Hope two times per day (six times per week in total) per character. There is no entry fee in order to attend to this dungeon.

There are two sets available for you:

- Abysmal Glimpse Set [9]:
 - Abysmal Glimpse Weapon **(Untradable)** / Abysmal Glimpse Weapon S **(Tradable)**

- Abysmal Glimpse Armor **(Untradable)**

- Abysmal Glimpse Accessories **(Untradable)**

- Abysmal Special Equipment Sets [3]:
 - Abysmal Eroded Set [3] **(Untradable)**

- Abysmal Distorted Set [3] (**Untradable**)

- Abysmal Twisted Set [3] (**Untradable**)

Only Abysmal Weapon has setless effects (but it's still a part of Abysmal Glimpse set); Abysmal Armor / Accessories / Special Equipment works only through set effects. You can use only one of three Abysmal Special Equipment sets.

The only subclasses whose Abysmal sets differ from others are Female Crusader and Enchantress - their sets work like usual support buff gear. Nevertheless, depending on your current gear, Abysmal sets might **not outperform** your current Female Crusader / Enchantress setup (if you're geared in Taybers endgame setup, then there's no point for you to farm Operation: Hope on her).

It takes about two months on average to complete 12/12 Abysmal buff swap setup.

DFOG Exclusive Items (Platinum-Slotted Aura and Belt Enchant) aren't needed for +10-maxed buffs

Most, if not all classes gain 9-10% damage by switching from chronicle/legendary optimal swap UI to the new swap UI sets.

Male Slayer
