Experience

MK Distributors LLC – Woodbridge, VA

Accounts Receivable & Logistics Specialist

- Analyzed large volumes of transactional data for 500 + customer accounts to detect payment discrepancies and identify financial trends supporting management decisions.
- Built advanced Excel-based analytical models (PivotTables, LOOKUP and logical functions, variance analysis) to evaluate cash-flow patterns and collections efficiency.

- Developed ad-hoc financial reports and visual dashboards to provide management with clear, actionable insight into receivables and operational performance.
 - Investigated and resolved reconciliation variances, strengthening internal controls and mitigating risk of financial misstatement.
 - Partnered with logistics and credit teams to align financial reporting with operational accuracy, enhancing reliability of data used in decision-making.
 - Implemented process improvements that increased profitability by 11 % through better reporting precision and data-driven performance tracking.
-

Hobbies & Interests

- Traveling across the United States to explore regional cultures, cuisines, and monuments.
- Learning from diverse cultural perspectives and applying those insights to personal and professional growth.
- Exploring new technologies and mastering emerging software tools to improve productivity and efficiency.
