

Consolidation Session 2

In Session 1, we reflected and shared our thinking in response to the following question, "*What is the difference between learning culture through education versus educational learning through culture?*"

Now that you have participated in today's session and listened to the experiences and perspectives of research team members...

- What new or additional thinking do you have?
- What are your plans for moving forward?
- What is one action you could take between now and next session?
- Record your responses

[illegible]
