If you are on mobile I recommend you download the **Google Docs app** and when you click the link from my website it will just auto open it in the Google Docs app and the images will appear fine.

MLB model bounced back yesterday going 2-0. The LA Dodgers were also almost a play which also won. But regardless it was nice to see the model bounce back after 3 bad days. Hopefully we catch a little hot streak this week.

No plays yesterday for the K model and not sure if there will be any today. Once ump's are announced I will take a look. So if I have any plays in that market I will let you know.

NBA lost yesterday with Orlando. They looked great in the first half then looked young and inexperienced in the second half. Tonight I would once again lean Denver but I'm not putting my money on it. Twolves are a bit of a public dog and the line is sketchy. Denver -4.5 Game 1 loses outright and today they are -5.5? Makes no sense. I also tend to like teams at home in Game 2 that lost Game 1. But once again I will not take it since I think Minnesota will win this series and looked like the much better team Game 1.

NHL loses with Carolina yesterday. Couple tough losses on back to back days as Toronto loses in OT and then Carolina loses by 1 yesterday. Couple really bad penalties early in the game gave the Rangers a couple power play goals. I still like Carolina in this series and will probably back them every game. For today I got no NHL plays.

So plays under the model are my official plays. I will post honorable mentions as well. Honorable mentions will not be graded and I personally won't be on them but I'll add them here. Variety of reasons I may not play them are: Pitcher proj looks good but i don't love the price, or pitcher proj is close and i like the price, etc.

Like I said , I won't be grading the honorable mentions but I will provide them in case you want to use them in some way or even play a K Prop Parlay (which are fun). However you want to use the info is up to you.
