Book by John Medina 	In <i>Brain Rules</i> , Dr. John Medina, a molecular biologist, shares his lifelong interest in how the brain sciences might influence the way we teach our children and the way we work. In each chapter, he describes a brain rule—what scientists know for sure about how our brains work—and then offers transformative ideas for our daily lives.	
Opening Classroom Doors http://professionaldevelopment.ibo.org	Here you'll find multi-media resources to help you look closely at teaching and learning in the three IB programmes. Each sample below features one unit of instruction – highlighting the written, taught, and assessed curriculum through videos, teacher materials, assessment resources, and student work.
