**Welcome and thank you for supporting the project!** In gratitude, we want to give you access to the beta version of the KLETKA and ask you to study the instructions below to download the necessary build to your PC.

We also ask you to upload bug reports to this [forum](#) of our discord server. The main communication will take place on [ru](#) or [eng](#) channels. For other questions, you can contact us by email:
solarponny@gmail.com

We kindly ask you **not to share materials taken from the beta build of the KLETKA**. We don't want to spoil the impression of other players who will receive new updates later.
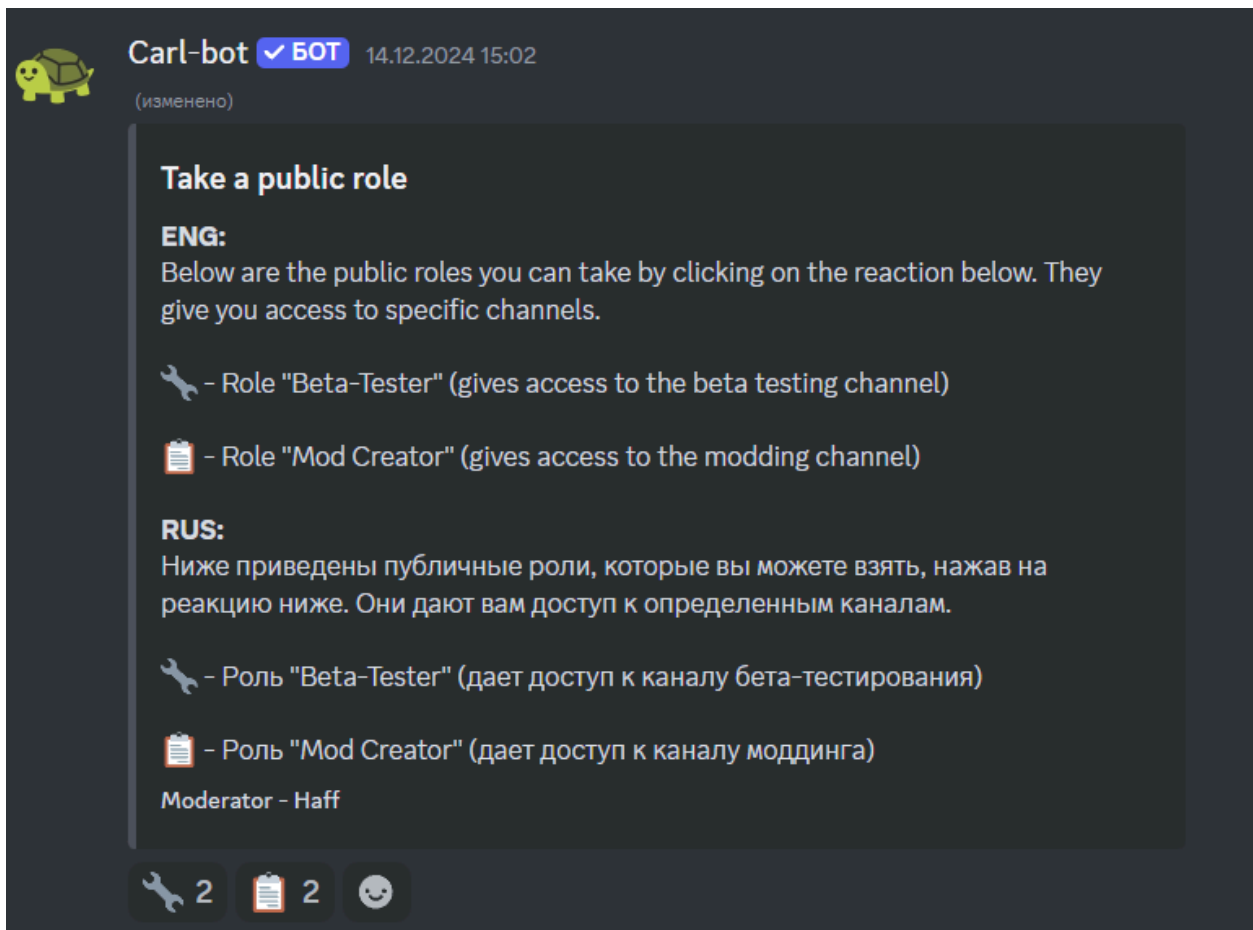

Getting a role on a discord server

1. Click on our Discord server name and check the box next to "Show all channels". This is necessary to further display new categories and channels on our server.

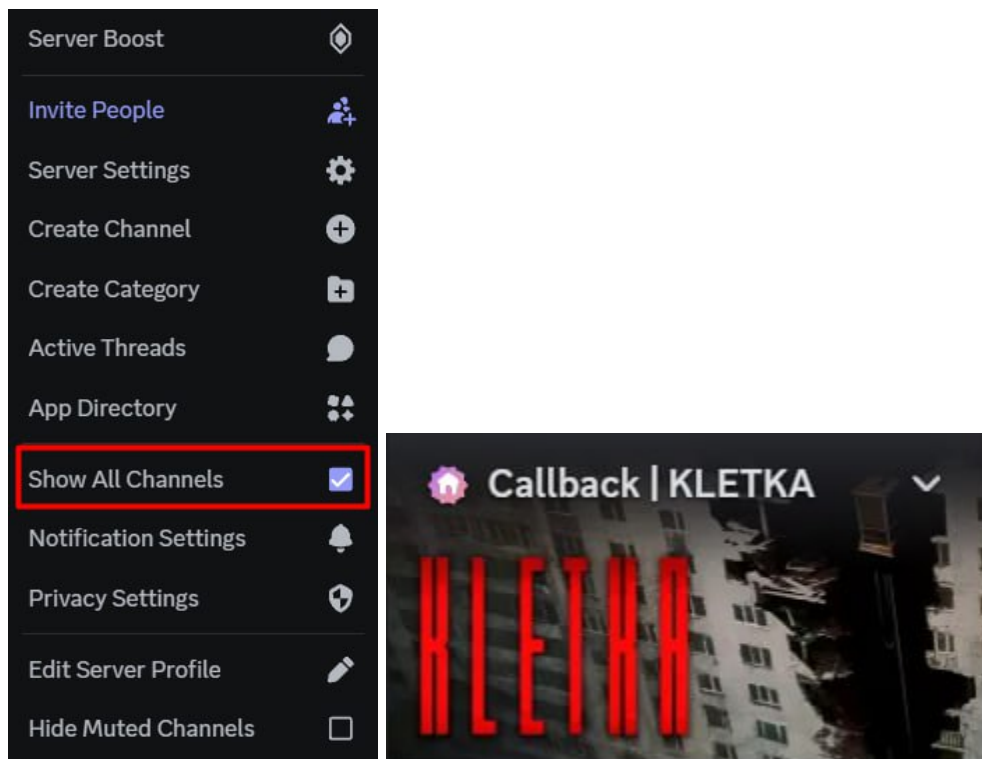

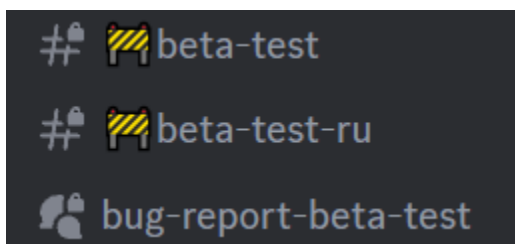

2. To access the beta testing channels in Discord, go to the "Welcome" category and the "roles" channel.

WELCOME
🏟️ welcome
🔑 roles

3.Click on the wrench reaction to get the "Beta Tester" role.
