ABSTRACT
Write the abstract in English. Use Times New Roman 11 for the body of the abstract with one spacing between lines, justified, and consists of 150-200 words. Inform; the issue, purpose (contains objectives of the research), method (delivers data collection of the research), results of the research (refers to collected data as an effort to answer research question), impact, and conclusion (summary of the finding and the result of the research).

Keywords: use Times New Roman 11, and write 3-5 words concepts that are core/essential/fundamental from the article, arranged alphabetically.

ABSTRAK
Tulis abstrak dalam Bahasa Indonesia. Gunakan jenis huruf Times New Roman 11 italic, dengan spasi 1, rata kiri dan kanan, terdiri dari 150-200 kata. Abstrak berisikan tujuan, metoda, hasil/temuan penting, dan simpulan.

Kata Kunci: Gunakan huruf Times New Roman 11 italic, 3-5 kata penting yang mewakili tulisan, disusun urut secara alphabetic.

INTRODUCTION

The introduction must begin without indentation using Times New Roman 12 bold capital letters. Subheadings are delimited by two spaces in the body of the article. Please set it to A4 format (8.27x 11.69 inches); With margins: bottom 3 cm (1.18 inches) and top 3 cm (1.18 inches), left 3 cm (1.18 inches) and right 3 cm (1.18 inches). For the paper body please use Times New Roman 12, single-spaced.

The introduction informs the research problem, using theory. The content of the article should be as follows: (1) title, (2) name and origin of the author's institution, (3) abstract, (4) keywords, (5) introduction, (6) discussion and analysis, (7) conclusion, (8) recognition (if any), (9) bibliography.

Don't number your papers. All text, images, and tables must be in English for English articles and must be in Arabic for Arabic articles. It should always be written in Times New Roman 12 font, especially also on figures and tables. Article length 3,500-5,000 words including all figures, tables, nomenclature, references, etc.

RESEARCH METHODS

Research methods consist of explanations of types of research, data collection, data sources, types of data, and data analysis. Written in paragraph form.

RESULTS AND DISCUSSION

Researchers need to inform several important (original) field data obtained from interviews, observations, questionnaires, surveys, documents, and other data collection techniques. The findings are presented in full and are related to the predetermined scope of research. Findings can be supplemented with tables, graphs, and/or diagrams. Tables and figures are numbered and titled. Example:

Researchers need to inform some important (original) field data obtained from interviews, observations, questionnaires, surveys, documents, and other data collection techniques. The results of the study are presented in full and related to the scope of research that has been determined. Research results can be supplemented with tables, graphs, and/or diagrams. Tables and figures are numbered and titled[1]. Example:

Table 1: Table headings are written above

Title 1	Title 2	Title 3
entry 1	data	data
entry 2	data	data

Drawings, graphs, charts, schematics, or diagrams are sequentially numbered and titled below, Times New Roman 12;

Figure 1: Dosen Quality Construction

The results of data analysis are correctly described in the article. The discussion section explains the findings logically, linked to relevant sources.

CONCLUSION

Write down concisely the results of the research then describe the logical consequences of developing the science and praxis of Islamic education. (Times New Roman 12).[2]

BIBLIOGRAPHY

Write down several references cited and written/cited in the text from primary sources, (80% taken from scientific journals, 20% from other supporting sources). Please use the [CHICAGO full note] style, for example:

for example:
