Parent Access to Student Information in PowerSchool

To Parent/Guardians

Thompson Public School provides access provide access to all of your student's current grades, attendance, and lunch account balance through one website and one login.

The website location is:

http://thompson.ps.state.nd.us/public

You can also access this through the Thompson Public School webpage by going to PowerSchool, then clicking on Parent/Student Login.

Parents are given their access codes on registration, and codes can be requested at the Main Office as needed.

FYI

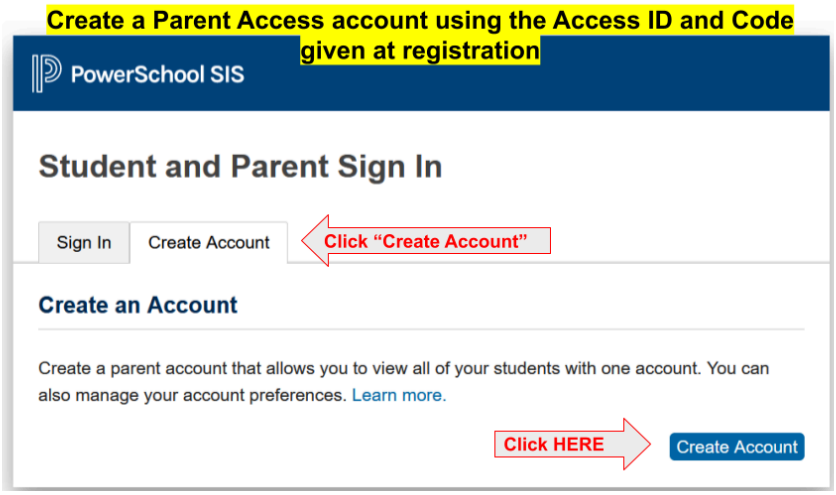

- ***Access codes are to help parents set up their account--they are not login usernames and passwords!***
- ***Follow the instructions below to help set up your account.***
- ***Your account is different than your child's login, and will allow you to create a single sign-on to access more than one student if that applies to your household.***
- ***Please keep your passwords confidential (even from your children) so only you can access the information.***
- ***If you have any questions or concerns about how to login the first time, or if you experience any difficulty please email me at: scott.conrad@tps-k12.org or call me at 701-599-2765.***

Sincerely,

Scott Conrad
Technology Department

Creating a Parent Access Account

Go to: http://thompson.ps.state.nd.us/public
