

Floyd by The F Suite

Floyd by The F Suite connects Claude to The F Suite's platform, a members-only community of Chief Financial Officers and their finance teams. Users can ask how peers handled a decision, benchmark what's normal at their stage, and search, shortlist, and compare peer-vetted vendor recommendations, all from inside any Claude surface: Claude.ai, Claude Desktop, Claude Code, or Cowork.

Unlike generic finance content or vendor directories, every answer is grounded in firsthand experience from the F Suite in-house finance community and links back to its source. You get the collective judgment of thousands of CFOs and finance leaders, from early-stage startups to public companies and venture funds, without leaving your AI workflow.

Floyd is read-only and available to active F Suite members.
