Exploring Polar Curves with GeoGebra

12. Learning obstacles and teaching proposals associated with the polar coordinate system: A literature review, Jan 2024

11. Exploration of Rose Curves with NetPad **May 2023**

10. Investigating of sine curve in polar coordinates using GeoGebra **Nov 2022**

9. Synthesising algebraic and graphical representations of the maximum and the minimum problems **Oct 2013**

Hypocycloids and Hypotrochoids

8. An Educational Robotics Approach to Drawing and Studying Central Trochoids at the University Level **November 2024**

7. An Innovative STEAM-Based Method for Teaching Cycloidal Curves in Engineering Higher Education, Oct 2024

6. How to Draw Cardioids with LEGO Robots: A Technical-Mathematical Project in Higher Education Oct 23

5. Explicit Mathematical Formulation and Coverage Consistency of Satellite Constellation Designs for Repeating Ground Track Orbit Jan 2023

4. Parametric Graph Project - Using LEGO Gears for Drawing Curves Nov 2022

3. **Bifurcation-Based Control Law for Pattern Generation Nov 2018**

Examining Possible LU Decomposition

2. **Exploring Approximate Communication Using Lossy Bitwise Compression on Interconnection Networks** Jan 2023

How long is the sqrt(2) cm?

1.Mathematics for Elementary School Teachers, Jan 2012
