

10.2.24

AT&T UPDATE: They continue to troubleshoot the outage in River Hills. If you have AT&T and still do not have service, please let us know so that we can make sure they know!

YORK COUNTY WATER UPDATE: York County has sent off a water sample for testing. Once the results are back, they can repeal the boil water advisory for the Cove Road area. Others with discolored water...I am told there has been a large amount of surface water that makes it way into the water center. The discoloration is normal after a heavy rain event and is not dangerous.

FROM THE LIONS CLUB: WOW..."We are all amazed by the generosity of our neighbors. This is the best place to call home!" All items will be taken to Western NC tomorrow by Uhaul caravan!

ANOTHER OPTION TO DONATE: Our resident, Megan Cook Levy will be driving to Burnsville, NC tomorrow with a truck. If you would like to send any donations with her, call/text Megan and she will pick up from your doorstep tonight. 561-541-0255

FROM MAINTENANCE: Maintenance has been tackling the neighborhood one street at a time. If your sticks, branches and leaves have been removed, please do not put another pile out immediately. It may be 3-4 weeks before your street is serviced again. Until ALL streets have been tidied up, we will not start back over. **Today we completed Sunrise Point roads and will start tomorrow on Holly Berry.**

PLAYGROUND IS OPEN! We got the playground trees removed Thankfully, the playground equipment was not damaged! Maintenance will seed and straw the area to try and alleviate the mud. We hope to plant a couple new trees this fall, but sunscreen may be needed on the main playground now!

LEGALLY SPEAKING: In South Carolina, if a tree falls on you, it is your responsibility to clean up (unless you have alerted your neighbor in writing that you are concerned about that specific tree). The property line is where the responsibility changes...some trees are shared once they've fallen.

DO YOU HAVE A TREE YOU WOULD LIKE TO REMOVE? ALL upright trees must be reviewed, approved and logged in our tree removal log. Rick and I review trees daily...just call the office to get a work order generated. If it's a no-brainer, you'll have a permit the next day in most cases.

A very thank Thursday River Hills...you all are AMAZING!

Amy
