

Run Report

Weather conditions: Overcast, north easterlies, 15 degrees.

Today was the first day of the school holidays but despite this and the Metservice prediction of inclement weather Millwater magic prevailed and the rain held off.

Today's run report is more of a **QUIZ** to try and encourage you the reader to engage with some parkrun statistics. In the table below you will find some words / numbers on the left and what they relate to on the right. Your goal is to **match** them correctly in less time than you would do the Millwater Parkrun! Give it a go or give it to the kids to do!

VectorStock® VectorStock.com/2409094

1	Paul Sinton-Hewitt	World female record
2	638	The first parkrun was held here
3	2014	The closest parkrun to Millwater
