
Bethany W Virginia

April 17th 1870

Mr. Jno. A. Gex,

Dear Uncle;

I wrote to you some time ago about the probability of my getting a school in your neighborhood, and I suppose the letter has been miscarried. Being anxious to get a good school somewhere for next year I write again if you know of any positions that I could probably obtain you would oblige me very much by letting me know of it. I graduate here this term and will be enabled to teach Latin, Greek, Mathematics and Belles-lettres – English, also if necessary some French and German.

If I could get a lucrative position in your part of the states I would prefer it to anywhere else; if not I will try any place where I can make money. Please answer this as soon as convenient. Give my love to Aunt Princy and the family. I remain very respectfully your nephew

WH Spencer
