Canvas Evaluation and Adoption Q&A

As we receive questions about the Canvas Evaluation and Adoption, we will post them here with our responses. If you do not see an answer to your question below, please submit a new question on the Canvas Q&A form. Questions submitted to the Canvas Q&A form are responded to on a weekly basis.

Q1. When adopted, will we have an easy method of transferring course material from Blackboard to Canvas? Some of us have literally hundreds of files posted as student resources on BB and to move them one file at a time to Canvas will be tedious.

All materials in Blackboard can be transferred to Canvas. We will be developing materials to support all faculty through the process. We do not recommend copying full courses from Blackboard into Canvas, but rather selecting specific areas or files to copy over.

Q2. Will we be adopting this platform? I use it at VC and am happy to give feedback.

There are a few more steps to finalize the contracts, but we are moving forward in the adopting process after the successful pilot. We welcome your feedback and ideas for assuring we have a smooth rollout.
