Overview

MAP Tray Count Monitoring task comes right after doing the Oxygen Monitoring task.

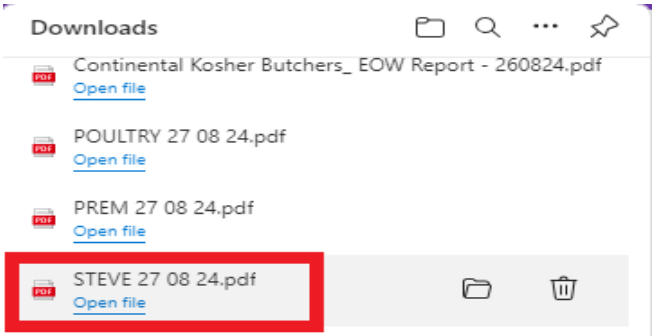

You will be needing the following:

- Your corresponding STEVE list
- **Monthly MAP Tray Count** file

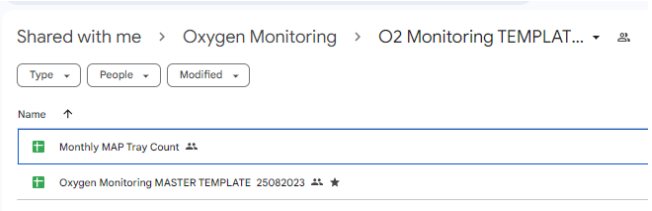

IMPORTANT - When putting in the data, make sure it is always the STEVE list of the next day

Step 1. Preparation

Ensure you have the completed STEVE list and your corresponding MAP Tray Monitoring file opened after doing Oxygen Monitoring.

Access the Map tray file from the Oxygen Monitoring folder on Google drive

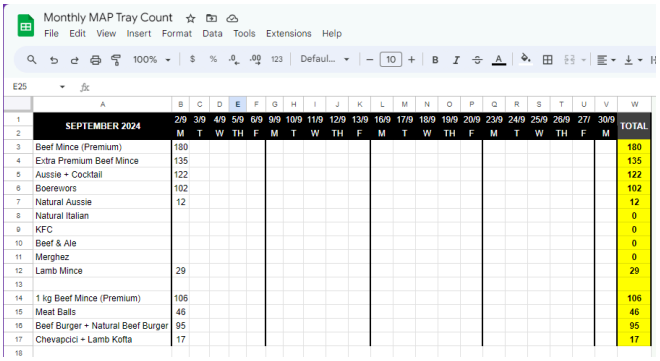

PROCEED TO THE NEXT STEP

Step 2. Data Entry

2.1 Open your MAP Tray file from Google Drive. https://docs.google.com/spreadsheets/d/1wmplgXGSLZP1LDeciGqb2pMssfWSoYJiCWVjHQjN09g/edit?usp=sharing

2.2 In the spreadsheet, fill the following items as seen on the **subtotal** of your STEVE List. Make sure the dates match up

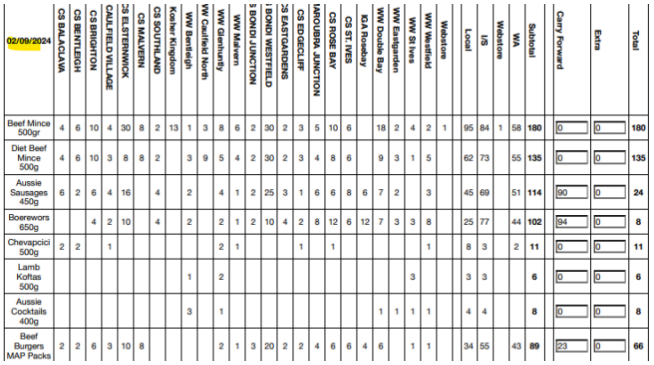

2.3 Review your STEVE list for the following items:

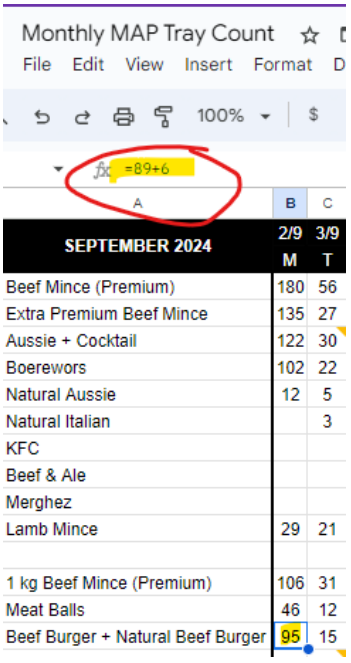

- Beef Mince (Premium)
- Extra Premium Beef Mince
- Aussie + Cocktail*
- Boerewors
- Natural Aussie
- Natural Italian
- KFC
- Beef & Ale
- Merghez
- Lamb Mince
- 1 kg Beef Mince (Premium)
- Meat Balls
- Beef Burger + Natural Beef Burger*
- Chevapcici + Lamb Kofta*

For items marked with a "+" sign (e.g., Aussie + Cocktail), combine the quantities of both products listed using “=” formula

And you’re DONE!
