

EDUCATING WOMEN IN FAITH, INTEGRITY AND COURAGE

GoGuardian Parent is an application available for iOS and Android, designed to provide parents and guardians the ability to pause their children's internet, block specific websites, and schedule internet availability on managed devices. This operation can occur on the student's SUA-issued laptop.

Interested in getting set up?

The first step is to fill out [this form](#). Once your account has been created, you will receive a confirmation from the SUA IT department.

Once you have received the go-ahead, you can download the GoGuardian Parent app, which is available on the Apple App Store [HERE](#) or Google Play [HERE](#).

Once the application has loaded, you will see on-screen prompts that guide you to authenticate it using the email address you have on file with the school's administration. (This is the email address you submitted on the Google Form to get your account created.)

After successfully entering the email address, a prompt will appear: "Please check your email—click the link in your email to log in."

Proceed to check your email on your mobile device and click the link in the email to complete verification. If the link does not work, use the PIN provided in the email when accessing GoGuardian Parent to complete verification.

You are ready to set up your filter criteria! Do you need more support? [Check out this help article](#).
