

Essay Letter Writing About Pollution - Email Format

Dear [Recipient],

I am writing to you today to express my deep concern about the issue of pollution. In recent years, pollution has become a major problem that is affecting our environment, our health, and our future. It is a global issue that needs to be addressed urgently.

Pollution is caused by various factors, including industrial activities, transportation, and waste disposal. The consequences of pollution are dire, including climate change, respiratory problems, and biodiversity loss. It is important that we take action to reduce our carbon footprint, recycle waste materials, and limit the use of harmful chemicals.

As citizens of this planet, we all have a responsibility to protect our environment and reduce pollution. I urge you to join me in taking action to reduce pollution in our daily lives. We can start by using public transportation, conserving energy, and practicing responsible waste disposal.

Let's work together to create a healthier and more sustainable future for ourselves and generations to come.

Sincerely,
[Your Name]
