

Advisory Boards: Roles and Opportunities

Our advisory board was critical to the launch success of Masks4Missions. Not only did we receive excellent advice and insight from advisory board members, they also helped open opportunities for mask-related action that we would never have achieved acting alone.

To help you form a board, we've assembled some resources to help you find local branches of the kinds of organizations our advisory board members led.

You should feel free to direct any organization you might speak with to <https://www.masks4missions.org> to see our work. If you are speaking with a local branch of the same organization as one of our partners, it may be helpful to reference the leader from that organization who has served on our advisory board.

We wish you the best of luck in your efforts!
