

To Our Students,

We are excited to let you know about a new initiative we believe in called Every Student Sent.

Be on the lookout for an email from your youth leader or school counselor to invite you into this platform.

Every Student Sent is a unique community-based platform to let you find and connect with existing ministries, churches, and each other in order to propel them towards Gospel-centered mission as they navigate and engage culture during college. Now you can be in a social group with other Christian students going to the same college as well as ministry leaders. You can develop friendships, discuss majors, find roommates, and prepare together to reach students in your dorm.

Graduating and going off to college is a huge event in your life, and as a way to help you stay connected to your Christian faith during this big life transition, we think it's important that you explore the Every Student Sent platform.

Here are some of the things you can do on the Every Student Sent platform:

Connect With Campus Ministries and Groups

Through Every Student Sent you can find all the campus ministries and Christian groups at nearly every school in the country. Find your school. Find your campus ministry. Get connected with other students..

Find Your Campus Community

Stepping onto a college campus for the first time can be intimidating, and as a Christian it can be hard to find a community of believers in your new school. Through Every Student Sent, see the Christians on your campus, make connections, and establish Gospel-centered community from wherever you are.

Grow Your Faith With On Demand Courses

Part of Every Student Sent is a built-in, online learning platform for tailored video courses designed to help students grow their faith and navigate culture during college. Central to this part of Every Student Sent is the Thrive Course. The Thrive Course helps prepare you for the mission God has called you to on campus. All of these 5-10 minute videos are under Courses in the ESS menu.

To get started with Every Student Sent, head to everystudentsent.org to sign up today.
