Course Description

Primary language schooling for K-12 students in the U.S. including study of biliteracy, writing strategies, curricular materials, assessment, and teaching reading and writing in Spanish. The nature of language and literacy teaching and learning in the language of emphasis. Skills related to instruction in two languages. Effective use of primary language, literacy and related curricular materials.

Course Overview

This required course for the Bilingual Authorization (BLA) provides you an opportunity to learn about the context for bilingual education and bilingualism in California and the United States. We will focus on the language development, in formal and informal settings, of emergent bilingual (EB) students, with specific emphasis on Latinx students. The course is designed to explore language and literacy in the primary language, interpret and apply understanding and skills for bilingual instruction, consider various approaches for biliteracy instruction and development, explore effective use of primary language, literacy, and content instruction across K-12 contexts, and design culturally and linguistically sustaining lesson sequence for emergent bilingual learners in bilingual contexts.

Student Support Services

Accommodations for Students with Disabilities

- If you are a student with a disability requesting reasonable accommodations in this course, please visit Disability Accommodations and Support Services (DASS) located on the second floor of Arroyo Hall or call 805-437-3331. All requests for reasonable accommodations require registration with DASS in advance of need. You can apply for DASS [here](#). Writing Support: Writing and Multi-Literacy Center (WMC)

- The Writing and Multiliteracy Center (WMC) provides CI post-baccalaureate and graduate students with FREE online support services and programs that help them become more effective writers and communicators. WMC *special consultants* are CI faculty who can help students working on graduate-level writing, research posters, and presentations. We can also help students working on personal and research statements required for graduate school applications. Students can drop in for a 30 min tutorial session or ask for one-hour sessions for longer projects. Make an appointment by visiting <http://www.csuci.edu/wmc> or see us live in our Drop In Room during our operational hours to ask questions or meet with a drop-in tutor. We are here for graduate students!

Campus Tutoring Services

- You are encouraged to make regular use of campus tutors and/or peer study groups, beginning in the second week of the semester. For campus tutoring locations, subjects and hours, go to: <http://go.csuci.edu/tutoring>.

Design a culturally and linguistically sustaining sequence of lessons. Students will plan three (3) sequential lessons in Spanish around a central topic. The lessons will clearly demonstrate alignment between CCSS and language objectives, as well as the learning tasks, and assessments that are related to an identifiable topic. The lesson focus should consider knowledge of your students' language development, abilities, backgrounds, interests, and learning levels that might further influence students' thinking and learning. The lesson must be primarily in Spanish and be guided by a culturally and linguistically sustaining pedagogical approach and in alignment with universal design principles (UDL).

The sequence of lessons have three parts:

- (1) A central topic and at least one children's book that is culturally and linguistically sustaining. A content, language and translanguageing objective and Common Core SLA and ELD standards.
- (2) Lessons will follow the provided template and must include:
 - a. A subtopic that is related to the larger, overarching topic, a clear content, language, and translanguageing objective.
 - b. Instructional activities that explicitly activates prior knowledge, make students' thinking visible, and allow students to wonder/ask questions, use their entire linguistic repertoire, and helps students develop language (tied to the language objective), and is informed by UDL principles
 - c. Opportunity for students to *apply and use* their new knowledge and understandings during the collaborative or independent activity
 - d. A check for understanding/assessment to ensure that students have met the objectives (also taking UDL into consideration).
- (3) A reflection on the lessons is required. These are the guided reflection questions you should address: In what ways have you grown professionally over this semester as a bilingual teacher? What additional assistance, support, and/or resources would have further enhanced your lessons?
