The Control Devil vs. The Savior.

(The Batter has the Add-ons, and Makima has the hybrids, Denji, and anyone else in her control)

Tab 2

Makima vs. The Batter (Chainsaw Man vs. OFF)

EXT. TOKYO - DAY

It was all silent until The Batter showed up by teleportation. He stares at the world, the text "Tokyo" He then starts to walk around. He then found a giant devil that roared, showing up and destroying everything in its path.

THE BATTER
(muttering)
An impure.

The Batter runs to the devil in an alley. All three Add-ons sprout from his body. The Batter jumps and bashes the devil's skull with his bat. The devil is defeated and disappears from existence as Batter lands on the ground.

THE BATTER
(muttering)
Advisaries purified.

Makima, out of nowhere, approaches the Batter; he notices her.

MAKIMA
(curious)
I have never seen you before. It's impressive to take down my devil. Are you interested in joining me?

THE BATTER
I am The Batter. I'm here to cleanse the world of impure spirits. You claim the 'devil' is yours? That means you are an impure Guardian like the rest."

MAKIMA

(a bit surprised but calm):

What a shame.

The Batter grips his bat.

The Add-ons rise a bit.

Makima chuckles while standing.

The camera zooms out to show both characters on opposite sides.

THE BATTER

Purification in progress...

FIGHT!

Chains of Purification plays

The Batter leaps forward.

Makima then summons her devils.

Fox Devil strikes the Batter first.

Batter strikes back, and it disappears.

Immediately after, the Cursed devil attacks from behind.

Batter dodges, and Omega destroyed it.

The Zombie Devil, Snake Devil, and Spider Devil cornered Batter.

Zombie Devil biting Alpha.

Spider Devil hit Batter.

Snake Devil struck Omega, but missed.

Alpha retaliated in response by attacking the Snake Devil in one hit.

Then Elipsion struck all three devils in one hit, and all faded away.

Batter uses Wide Angle (a move that reveals enemy information) on Makima to gather intel.

Makima grabs her katana and lunges at him. The two clash with their weapons.

Then Batter shoves and decapitates Makima.

Her head reappears.

A random citizen explodes in gore.

The body is gone.

THE BATTER

That is impossible, you should've been gone.

MAKIMA (proud)

Any other devil would've been.

THE BATTER

Enough games, Guardian.

Makima flies backwards, now floating in the air.

MAKIMA

Chainsaw Man is one of the greatest legends of Tokyo. He will strike you down!

Denji arrives in front of Makima.

MAKIMA

Fight this man to show me your love.

Denji pulls on the chain and turns into the Chainsaw Man.

DENJI

Yes, Makima.

Epsilon buffs the team a bit.

Batter tries using Wide Angle on Denji, but was caught off-guard by Denji's strike.

Batter strikes back,

Denji stumbles for a bit.

Omega attacks Denji by debuffing him.

Followed up by Alpha, which blinds Denji.

Batter grips onto his bat, lunges at Denji, and uses Ultimate Homerun on him, leaving a huge hole in Denji, and he is bleeding all over, and sits on his knees in shock.

DENJI

No way...You shouldn't be able to do this!

BATTER

Be silent, corrupted child.

Batter stares at Denji as he disappears. His gaze is now on Makima.

MAKIMA

(a bit shaken but hides under a smile)
Not many can kill him. You must feel special.

THE BATTER

Hiding behind your demons won't spare you from my judgment!

MAKIMA

I simply do what is necessary, Savoir.

Makima uses BANG after BANG repeatedly.
Which hit Batter like a bullet multiple times.
Alpha was taken out.
Makima uses her chains aimed at Batter.
The chains impale his forehead and wrap around his arms.
Chains also surround Omega and Elipsion.

MAKIMA

You will submit soon enough, Purifer.

Screen fades

INT. WHITE ROOM - ???

Then what is shown is a simple white room with Batter in it, Makima's eyes are seen from above, Batter then opens the door, revealing his memories; showing images of Elsens, Dedan, Japhet, Enoch, Queen, The Judge...even Hugo, who all disappear one by one with fear. The purified worlds are shown afterward.

EXT. TOKYO - DAY

It returns to the real world with Makima shaken than ever.
Batter moves his arms and rises like nothing.

MAKIMA (still in shock)

My control doesn't affect you? You are something beyond human, Batter.

The chains stuck on the Add-ons no longer attach to them and fall.

The chains on Batter's arms fall too.

THE BATTER

I'm The Batter. My sacred mission is to purify the world, led by Player...

The camera zooms closer to his forehead as Batter grips onto the stuck chain, for a split second showing Makima's eyes.

THE BATTER

No one but Player controls me.

Batter rips out the chain with a violent pull.

As whiteness flashes on the screen for a bit.

Through Makima's eyes, Batter is now viewed as the Bad Batter.

He roars and runs at her.

Makima summons the hell devil, causing a portal to

INT. HELL

As both of them fall into a large gap surrounded by lava, now, Batter stands alongside his Add-ons, with Makima on the ground.

THE BATTER

It's too late to back out, Control Devil. Purification for Tokyo is inevitable.

Makima rises again, prepares to use Bang! On Batter, but he kept dodging, Omega used the debuff moves on her, Epsilon poisoned her, Makima still in desperation tried to BANG, it got Omega, until Batter swings his bat at her, she fell on the ground bleeding, then Batter hits her multiple times in the face with brutal multiple swings, one swing showed a scene of Tokyo with people exploding in gore, the population going down as Tokyo

turns white. Until he did one last one with blood splattered all over. Batter, in his normal form again, breathes slowly, staring at Makima's battered body as she struggles to breathe, his bat now covered in blood, in shock that not only has she lost, but the fact that she can no longer transfer the deaths to anyone.

MAKIMA

(breathing heavily)

You are stronger than Chainsaw Man or me. You'll purify until all is gone. Your 'sacred mission' gives you nothing but another empty world.

THE BATTER

(ignoring her response, still calm)

You've been defeated, Makima, Control Devil. Guardian of Tokyo. This land is now pure. Join all your victims in the nothingness.

Makima's body glows, and everything turns red.

The screen turns black.

Footsteps are heard.

A glimpse of Tokyo's current state is shown: empty and white.

Unsettling music plays.

Multiple Secretaries walk around a purified Tokyo mindlessly.

THE BATTER

(off-screen)

Off to the next zone.

The screen turns black again.
