GAMES2WIN

Job Description for QA-Test Engineer

Game Name : Fashion Stylist: Dress Up Game

Game Download Link : **Android , iOS**

Platform : Android

About The Game : It's a simple Dress Up game. There are many levels to play and unlock style challenges and special events. Become a super fashion stylist & designer for all kinds of dress up & fashion events! Style girls with designer clothes, design makeup looks and choose the hottest fashion accessories. Complete your style with glorious hairstyles. Play at least 7 levels to unlock style challenge and special events.

What To Test : You must test the game and note any bugs you find.

Issues may be :
1. Functional
2. User Interface
3. User Experience
4. Audio
5. Performance(Lag)
6. Content(Text)
7. Localization

Bugs Reporting :
a)
Please prepare a spreadsheet (ideally Google Spreadsheet; if not, Excel is fine).

Define the set of columns you will report on. For e.g., bug Description and Priority. Please list all columns you feel a bugsheet should have.

b)
Report all the bugs you find on this sheet, filling in the columns you provided.

Test Case Writing :

1. The game has 3 chapters (Write Test Cases on game at any level
2. Write Test Cases on Store and Profile page scenarios
3. Share in the same bug sheet.
