

Quote & Comment Q3

My personal weekly goal is 1 or 2 hour(s) and 45 pages.

Week 1 Beginning 1/6

What I'm Reading: Five Feet Apart

Start Page Monday 8

End Page Friday 12

Passage from the text/Quote	Page #	Comment including so what	Type of Entry
"Camila pulls away to look at me, pouting, her dark-brown hair practically drooping along with her. "Second trip in a row without you."	4	I can infer that Stella (the main character) feels very disappointed/sad that she can not go on her senior trip with her friends. I can infer that she is also sad because she has to spend a weekend at the hospital because of a small sore throat and a small fever she has, instead of being in Cabo with her friends Camila and Mya.	Inference

Week 2 Beginning 1/13 What I'm Reading: Five Feet Apart

Start Page Monday 12

End Page Friday 24

Passage from the text/Quote	Page #	Comment including so what	Type of Entry
"... <i>Oh My God</i> . Gross. He's letting his friends do it in his room, like it's a motel.	23	I can infer that Stella is very disturbed by the fact that some kid is letting their friends make out in his hospital room.	Inference

Week 3 Beginning 1/20 What I'm Reading: Five Feet Apart

Start Page Monday 24

End Page Friday 34

Passage from the text/Quote	Page #	Comment including so what	Type of Entry
"... like she's putting on her own personal Thanksgiving Day Parade."	25	I can infer that the main character thinks that the other character is very self-obsessed.	Inference

Week 4 Beginning 1/27 What I'm Reading: Five Feet Apart

Start Page Monday 34

End Page Friday 54

Passage from the text/Quote	Page #	Comment including so what	Type of Entry
"A transplant's not a cure, but it will give me more time! I'd love a few more years if I'm lucky enough to get one! Tell me about it, Stella. At least she's got a shot. "	35	The quote, "At least she's got a shot." tells us that the character feels sad that she does not even have a chance to get a lung transplant and Stella actually has a chance. Personal Reading Goal Q3

Start page in book ? 8

Read 10 minutes

End page ? 13

Number of pages read in 10 = 5

Number x 6 = pages read in an hour = 30

30 x 2 = pages read in two hours = 60

Put the total for 30 pages OR 60 pages
