Abstract. Please type your abstract here. Abstract is typed in italic using a font size of 10 pt with **the total number of words must be no more than 250 words** with a minimum number of 200 words. Abstract must contain a very brief introduction, which is extracted from the Introduction of the paper without showing the cited references. This is followed with the objective of the study, and based on the objective(s), the author(s) describe the methods used, if possible in a bit detailed explanation, including the design of the experiment for an experimental research or design of the survey for a survey research, and if needed, this should be followed with the research variables and the data analysis applied. Finally the author(s) must describe the findings of the research that were discussed in the Results and Discussion followed with the conclusion and implications or recommendations (if any). The author(s) must be able to extract the significant findings from the research to be listed in the abstract to make the abstract more informative and attractive to the readers which could make the readers more curious to read and download the entire research paper. In addition, abstract is followed with keywords by listing five keywords that are useful for finding this paper in the web using a search engine. Please leave the left side column as is, which will be filled by the Editor prior to publication.

Cite as: Tatik, A.E., & Wangiyana, W. (2021). Addition of silicate or organic fertilizer increases growth and yield of several varieties of maize in East Lombok, Indonesia. *Journal of Sustainable Dryland Agricultural Systems*, 1(1): xx-xy. DOI: https://dx.doi.org/10.29303/josdas.v01i1.x

Please explain levels of contribution of each author listed above in the preparation of the manuscript and/or the implementation of the research project, to be agreed by all authors:

Author1 (email: -----), role: ----

Author2 (email: -----), role: ----
