

Week of: **November 13- November 17, 2023**

Lesson Plans

	Objective	Lesson Activity	Closure
MONDAY	We will build a roller coaster to show force and motion and calculate speed.	Marble Run- Roller Coasters	I will explain how to find the speed of the marble.
TUESDAY	We will review motion graphs and Newton's laws	Review Motion Graphs & Newton's Laws	I will explain what constant speed looks like on distance and speed graphs.
WEDNESDAY	We will review speed and force triangles	Review Speed and Force Triangles	I will explain how to use the triangles to set up an equation
THURSDAY	We will complete the unit test.	Unit 3 Test	I will show what I know about force and motion.
FRIDAY	We will complete the unit test.	Finish Unit 3 Test	I will show what I know about force and motion.
