Linework		***Extra character**
Bust:	$35	+$30
Partial Body:	$60	+$57
Full Body:	$75	+$70

*A **sketch** will not get a rough pass phase; you get what you get, with only minor changes.
-**Linework** gets a rough pass before continuing the rest.

Color		***Extra character**
Bust:	+$15	+$13
Partial Body:	+$20	+$18
Full Body:	+$25	+$23

Grayscale		***Extra character**
Bust:	+$10	+$8
Partial Body:	+$15	+$11
Full Body:	+$20	+$18

Basic Shading		***Extra character**
Bust:	+$10	+$8
Partial Body:	+$15	+$13
Full Body:	+$20	+$18

Shading/Lighting		***Extra character**
Bust/Portrait:	+$25	+$22
Partial Body:	+$30	+$27
Full Body:	+$35	+$32

***Extra characters** *in the case of large scale **G/t scenarios** may be priced less as well depending how much detail on the smaller character will be shown.*

Props/inanimate objects (i.e. drink, food, tables, couches, chairs) cost more depending on how many and how intricate the design, but roughly range around:

Drawing	+$3 and higher
Color	+$8 and higher
Basic shading	+$13 and higher
Full Shading	+$18 and higher

Details like ripped, tight clothing or clothes in odd shapes (ie. immobile or sphere) will cost more as well depending on request, but roughly at least an extra **$5**.

Simple backgrounds only starting at an additional $30.

SEQUENCES

The main thing with **Sequence art** and **Storyboards** is to just ASK bc pricing will depend on case by case scenarios and it's hard to give a low down on the bases without getting too cluttered here!
Just know that the prices will basically be like asking for multiple pictures based on the normal pricing for those characters. So not cheap.

WILL DO: Monster transformations and growth (giant, expansion, WG)
WON'T DO: (see rules)

Sequences will be done as separate pictures/files for each frame but can be put together after as one on request.

- **Frames can be put together in a basic animatic for an added cost of $5 per frame.**
    - Will be put together as an MPEG-4 and will need to be sent via email.

- **Each frame** of a sequence will be the **same cost** as an **individual character drawing** and each additional frame will be **the cost of adding an extra character.**

- **Current maximums: (all the pricings listed are only an estimate to help gauge)**

- **Full Shading/Lighting & color:**
  - Linework: 3 frames
  - Sketch: 4 frames
- **Full Basic shading w/ color:**
  - Linework: 4 frames
  - Sketch: 5 frames
  - Rough: 6 frames
- **Fully Colored/Grayscale:**
  - Linework: 5 frames
  - Sketch: 6 frames
  - Rough: 7 frames
- **By Itself:**
  - Linework: 6 frames
  - Sketch: 7 frames
  - *Roughs: 8 frames

*__Roughs__ are even less than the sketch and generally are a style I use for doodles or storyboards, so don't expect a lot of detail other than the main action.

-You could also change your mind later and pay for a full sketch/linework after if you so chose the rough option.

- **Sequences with an initial base frame being the same and only add ons on top of it as it goes will be charged cheaper!**

- **Storyboards will also be considered, but will need to be discussed.**
  - Storyboards can either be done as **rough** or **cleaner with some grayscale**
  - **Beat Boards** and **Color Keys** can also be considered in a similar page setup.
