

Increase Your Global Scope!

Hello (Name)

I see a lot of potential in the health and fitness industry and I believe your product has just what the market is looking for.

Your competitors WelleCo and Myprotien use Newsletters to convert weary buyers into eager consumers.

By introducing a newsletter your sales will begin to grow exponentially and you'll far surpass any of your rivals.

I've attached a free sample below.

If you like what you see (which you will) then we can book a call.

Does Monday or Tuesday sound good?

Thanks,

Jack
