

Steam ID Blacklist

The purpose of this blacklist is to identify known ambushers and prevent them from preying on DayZ players. If you encounter a person who used out-of-game methods to ambush you (TeamSpeak, Reddit, Forums, etc.), then please provide us with their Steam ID to add it to this list. Send an e-mail to redditrescueforce@gmail.com with the subject line "Blacklist Steam IDs", the Steam IDs, and a **detailed description** of why they are to be blacklisted.

Requests to *directly* edit this document will be ignored. Contact us by e-mail, teamspeak or reddit mail only!

Note to medics: The following process will allow you to use this black list to look for previous offenders before beginning the rescue. If you have been ambushed, then submit a '**RRF Suspected Ambush Report**' ([link here](#)). This allows capture of all important details so that admins/moderators can respond appropriately.

How to use:

1. **Enable 'Display Steam URL'** - In Steam, along the top menu bar select '**Steam**' ----> '**Settings**' ----> '**Interface**'. Tick the third box from the bottom allowing you to display the URL in the top left corner of Steam.
2. **Search SteamID** - Ask OP to type their SteamID into the chat. Select '**Friends**' from the menu bar and then "**Add a Friend**". Copy-paste their SteamID into the search. If there are multiple users with that name, ask for a description of their profile picture and country. Once the correct user profile has been identified, right click anywhere on the profile page and click 'copy page URL'.

NOTE: If the profile is using a custom URL, you **MUST** convert it to the 17-character SteamID before searching for it on this blacklist! Use SteamRep.com to do this!

3. **Search Blacklist** - Press "**Ctrl+F**" on your keyboard and paste the SteamID of the person into the search box. If a result comes up in the list, then the person you are interacting with has been previously confirmed as an ambusher or associated with one. These people should not be trusted. Message an available TS admin for further direction without revealing your discovery to the OP.
