2. If needed, log in to Clever.
    a. Choose “Login with Active Directory”
    b. Enter your district Active Directory ID and Password.

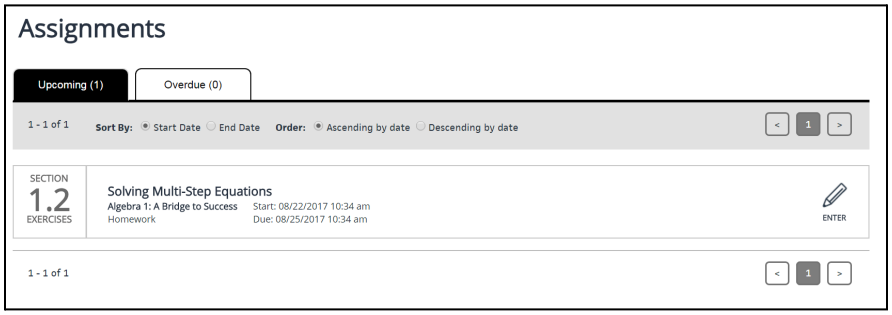

3. Once in Clever, click on the tile for Big Ideas Math. →

Completing Assignments

Once logged in to Big Ideas Math, you will be able to access your assignments by selecting the “Assignments” tab. There is an “Upcoming” tab for current assignments. If it is past the posted due date for an assignment, you will find it in your “Overdue” tab.

When you finish working on an assignment, click on your name in the upper-right corner. From there, you can choose to **submit** the assignment if you’re completely done, or **save and exit** so you can return to finish it later.

If you accidentally submit an assignment before you are done, you will need to request to have it returned. **Please DO NOT email me for this request**, as emails can easily get lost! Instead, use this form to submit your request: 🔗 Ask Ms. Rice to Return an Online Assignment
