Current State: Tyson has a passion for music but is left disappointed by the lackluster “courses” on the internet from youtube to udemy. He wants to pursue a passion as an R&B artist someday but he is struggling to get off the ground, not only because of the generic content, but his personal life as well, because he is busy throughout the week working a 9-5.

Dream State: Tyson wants to become an R&B artist.

Roadblocks: Generic online courses have taught him nothing and aren’t helping him really engage with the content.

Solutions: Provide a more in-depth course that’s interactive, professional and that he can do on his own time.
