Website Checklist (Test Grade)

What is your burning question? What are you trying to find out or prove? Create two projects that help you find those answers. Those projects should be significant, require time and effort, and show your best academic work. You can be as creative as you wish, but make sure you are "showing what you know." You should research, ask questions, interview people, create surveys--whatever it takes to dig into your topic! You will be presenting your website to the class as your final project for ELA. *You will have 8-12 minutes. You will be stopped at 12 minutes, and you will lose points for less than 8 minutes.*

Home Page: _____/10

    ___ interesting visuals
    ___ burning question clearly written
    ___ topic is clear
    ___ student name

About Me Page: _____/10

    ___ interesting visuals
    ___ at least 10 facts

Project Parameters Page: _____/10

    ___two projects are listed
    ___two projects are clearly explained with details
    ___two projects state the way it will be successful (This will be a successful project if…)
    ___evidence of academic risk-taking (You do something that IS NOT simply a slideshow)

Project #1: _____/30

    ___interesting visuals
    ___lives up to the expectations that were approved
    ___creative
    ___informational
    ___approaches the burning question in some way

Project #2: _____/30

    ___interesting visuals
    ___lives up to the expectations that were approved
    ___creative

___informational
___approaches the burning question in some way

Project #3: _____/30

___interesting visuals
___lives up to the expectations that were approved
___creative
___informational
___approaches the burning question in some way

Book Review/Research Review: _____/10

___complete
___linked on the page or written clearly (set up like an article, etc)
___visuals
