Topessaywriting.org Review

According to the information on their site, Topessaywriting is an essay writing service that provides high-quality essays and assignment help to students. We wrote this Topessaywriting.org review to determine whether this writing service is actually a trustworthy writing company that students can rely on to supply them with assignment help with zero

plagiarism or not.

Based on the mixed Top Essay Writing reviews on the internet, students may find themselves wondering if this writing service is legit. For students to avoid scams, they need to rely on Topessaywriting review that is based on info gathered from feedback from customers and our experience with this writing service.

Topessaywriting Services Review

Topessaywriting.org provides a wide range of academic and non-academic writing and editing services. Students can hire the company for their essays, term papers, courseworks, book reviews, book reports, movie reviews, research summary, dissertation, thesis, case studies, lab reports and other types of essay papers. You can also get solutions to your math, physics, or statistics problems.

We are also impressed that apart from all the specialized academic services that this writing service caters to, they also offer resumes, CVs, cover letters, LinkedIn design services, copywriting services, proofreading, editing and rewriting services among others. However, a worrisome issue is the excessively wide range of services they offer and we wonder if Topessaywriting.org would be able to maintain high quality.

Topessaywriting.org Prices Review

The pricing system of Topessaywriting.org is based on the urgency of the paper, the type of service, academic level and number of pages of the work students want to order. All the prices are written clearly on their website so that clients can see the cost of whatever service they want to order for in either US dollars, pounds, Euros, Canadian dollars and Australian dollars. The prices available for each service are affordable and this writing service can even be said to be relatively cheap when compared to other writing services online.

Topessaywriting.org is obviously one that understands the concept of customer attraction and customer retention because they have discount packages for both first-time clients and regular clients. First-time customers can enjoy a 15% discount on their papers or assignment. Regular customers enjoy discounts based on the number of pages they want to pay for. Customers paying for more than 15 pages can enjoy a 5% discount; customers ordering more than 50 pages can enjoy a discount of 10% while customers paying for a paper of more than 100 pages get a 15% discount.

Apart from discounts, this writing service also allows customers to enjoy free features: a free outline, title page, bibliography, plagiarism report, formatting and unlimited amendments with every order.

Top Essay Writing Quality Review

The quality of papers and assignments which this writing service offers is one of the reasons for their low ratings during this Topessaywriting.org review. Apart from the bad ratings from clients who have hired this writing service, we decided to buy a research paper from them. Although they delivered our paper on time, the paper did not meet our expectations at all. Furthermore, the paper had a few plagiarized contents.

Topessaywriting Customer Support

We contacted customer support to get our work rewritten but we had to wait ten hours to get a reply. Their slow reply also contributed to the ratings we gave them during our Topessaywriting review. However, when the customer support attended to us, he did his job and directed us to a writer who helped us to correct the paper and re-write the reference.

Online Reputation of Topessaywriting

This writing service has a positive/negative online reputation. Some students have sworn off ever hiring them based on their reviews while some customers have provided good testimonials supporting this writing service.

Short Topessaywriting.org Review

Topessaywriting.org offers its customers affordable services and provides its customers with both a toll-free number and chat option on their website to make it easy for clients to contact customer support. However, they need to improve on the quality of papers they provide. They need to get expert writers or train and develop their current team of writers so that they will provide customers with high-quality assignment help.
