- Email Address of the Host:

Proposal Summary (Max. 300 words):

Provide a concise summary of the proposed project, including the key research question, objectives, expected outcomes, and significance of the visit.

Section A: The Scientific Proposal (Max. 5 pages)

Provide detailed information about the scientific, technical, or scholarly aspects of the project. This section should address:

1. **Nature of the Research:** Explain the focus and scope of the research to be conducted during the visit.
2. **Research Methodology:** Provide a brief description of the methods and approaches to be used.
3. **Potential Impact:** Highlight how this research could contribute to your field, the host institution, and Özyeğin University.

A.1. Objectives

- Clearly outline the objectives of the project.
- Justify why the proposed topic merits funding, emphasizing its innovation, relevance, and potential benefits for your research and professional development.

A.2. Alignment with Host Institution

Explain how the proposed visit aligns with the research interests of the host institution/organization and how it will contribute to building long-term collaborations.

A.3. Expected Outcomes

Describe the expected outcomes of the visit, including publications, presentations, or future research proposals.

Additional Information

Include a letter of invitation from the host institution or host and any relevant details, such as prior collaborations with the host institution or organization.

Section B: [Attached CV]

Submit a short CV as a separate PDF file, in any format of your choice.
