Other Information:

Many announcements, assignments, and other information are posted through Google Classroom. Parents/guardians of students have the opportunity to receive email summaries explaining what has been posted through Google Classroom. If you want to see details of any assignment that has been pushed out through Google Classroom, ask your son/daughter to show you while he/she is logged into his/her school Google account. For instructions on how to accept email summaries from Google Classroom and how it works, [click HERE](#). This [link](#) will also show you an example of what an email summary would look like.”
