

Niche: youtube automation

Specific detail on their website: 7 day 100% money return back guarantee

Website: online business club (I didn't just make that up its actually what it's called)

Going to send this via instagram since there's no actual email thanks Gs

Hey Dave,

I checked out your Online Business Club and was able to find 5-6 major design tweaks that you can use to your advantage.

I had gotten these ideas from other top players in the same niche as Youtube Automation.

It can 2x-3x the current amount of members you have inside the course and help you retain them much easier, without any of them having to consider requesting a refund in the 7 day money back guarantee you offer.

Would you like to have a small chat about it or zoom call perhaps next week at whatever time suits you best.

Thanks G,

Muhammed
