

Peer review group 8 (0LAUK0 2019/2020 Q3)

We discussed our group work process together and decided each group member contributed the same amount because no significant differences were found. The distribution of work was quite well balanced, it turned out. That is why we decided to keep all numbers in balance, everyone's relative grade is therefore equal to 0.

Name	Student Number	Relative Grade
Teis Arets	1261991	0
Tom Bergmans	1253565	0
Nynke Boonstra	1251155	0
Bob Hofstede	0950282	0
Emile Merle	1244746	0
