2022 Winter Olympics

The stars.

Madison and Evan.

We've been watching them for years, and considering the huge personal investments they've made to get to this level. Marveling at their work ethic.

Their artistry.

Their athleticism.

Their talent.

May Eric, and Nancy, and the whole family, and by extension the whole ELHS '68 family, and beyond, revel in their success with them.

Thanks for the link shares, everyone. And for the joy you've brought to all of the above, Evan and Madison.

Enjoy them once again:
