RULES FOR HORTICULTURE EXHIBITORS

1. All classes are open to all daffodil growers except where specified.
2. All exhibitors are asked to register in order to obtain an exhibitor number. Exhibitors may register in advance of the show or upon arrival at the show at the horticulture registration desk. [Link to registration](#).

Registration closes at 9:30 am Wednesday March 26, 2025.

1. All entry cards will be provided. **Both the top, bottom and back of the entry card must be completed .**
2. Entries may be made from 12:00 noon- 5:00 pm, Tuesday, March 25th, 2025 and from 7:00 am - 10 am on Wednesday, March 26th, 2025. All entries must remain in place until Wednesday, March 26th at 5:00 pm.
3. **Judging will begin at 10:15 am on Wednesday, March 26th**, at which time the show area will be cleared of all persons except show officials, judges and clerks until the show opens to the public.
4. Horticulture judges may not enter any class that they have been assigned to judge.
5. Information on an entry card, including the exhibitor's number, which could compromise anonymity, must be concealed. Name labels or rubber stamps are encouraged.
6. The exhibitor must have grown all standard blooms in the open. Miniatures and containers may have been grown in protected areas.
7. Exhibitors may make up to three entries in each class for single stems or three of one variety provided that each is a different variety. Exhibitors may make only one entry in collection classes, including all classes in Section A.
8. All cut daffodil specimens will be shown without daffodil foliage. Materials will be provided for staging blooms. Exhibitors may bring their own staging material, except **no boxwood is allowed at any GCV event**.
9. All collections of five or more stems must be exhibited in separate containers. Containers will be provided for all horticultural entries and will be clearly marked in the staging area.
10. The Garden Club of Virginia Club Collections must be entered in the name of the member club.
11. Each stem in an exhibit receiving an ADS Award must score 90 or more by the ADS scale of points.
12. Only one first, one second, and one third award will be given in each class. Honorable Mention awards may also be given, but only if all higher awards are given. If a blue ribbon has been awarded in a class eligible for an ADS ribbon, the ADS award may not be withheld.
13. First, second, third and honorable mention awards may be withheld by judges if, in their opinion, the exhibit is not worthy.
14. The Best Bloom is chosen only from Blue Ribbon Winners, with the exception of an outstanding horticulture specimen exhibited in a non-blue ribbon, multi-stem class.
15. When selecting the Best Bloom, all horticultural judges must be present. Selection is made by ballot.
16. Exhibitors are responsible for proper name or number. **Divisions and color codes are required in all classes.** The Royal Horticultural Society System of classification will be used. The authorities are *Daffodils to Show and Grow* (latest printing), and www.daffseek.org, which will be available for reference. Entries that are incorrectly named will not be judged.
17. The originator's name **MUST** appear on the label for each stem in the American-bred classes, except for seedlings shown by the originator.
18. No label may be changed except by the Show Chairman or Classification Chairman in the case of placement error. No bloom may be altered, added, substituted or removed after the judging has begun or after an award has been placed.

Miniatures

Miniature daffodils may be shown only in classes for miniatures. A guideline when entering or judging miniatures is that a single-floreted cultivar normally possesses a flower less than 50 mm (1.97") in natural spread. For a multi-floreted miniature daffodil, the guideline measurement for the floral mass is 72 mm (2.83") in natural spread. The judges may penalize any exhibit exceeding these measurements at the time of judging or decline to judge them as they find appropriate. Any named, numbered, or species daffodil which appears graceful, with all parts proportionally small, may be exhibited in the Miniature Classes, and is eligible for all ADS Miniature awards, except that only numbered seedlings shown by the originator shall be eligible for the ADS Miniature Rose Ribbon.

Seedlings

Blooms of seedlings may be exhibited in all classes for named cultivars, provided they are identified by a number and classification assigned by the originator. If an exhibitor is not the originator, the originator's name must be included on each label. The originator of a daffodil is the person who first flowers the bulb, regardless of who made the cross and/or first planted the seed. Only seedlings shown by the originator are eligible for the Rose or the Miniature Rose Ribbons.

Miscellaneous

1. The Show Committee reserves the right to subdivide classes by variety or color code when there are three or more worthy exhibits of the same cultivar or color code and if at least three worthy exhibits are left in the class. Species may be subdivided by their botanical sections.
2. All judges shall follow the rules and terms for judging as set forth in the Garden Club of Virginia Flower Shows Handbook at www.gcvirginia.org and the American Daffodil Society's current *Handbook for Growing, Exhibiting, and Judging Daffodils*.
3. The decision of the judges is final. If an error is discovered in an exhibit after completion of judging, any award placed thereon (ADS, Special or Ribbon) shall be forfeited by the exhibitor. If an error is discovered BEFORE the judging is completed, the class MUST be re-judged.
