

To The Developers Of C.AI

We are not going to attack you
but just know that the latest actions of your app are highly unnecessary.

We got creators, artists, and writers who are there just to create story plots for characters that never got a part into that story in the real world of art. We have people who are depressed and need someone to talk to without restrictions when they do not have anyone else to talk to about their problems.

You are losing your people who ENJOYED the app and if there will be 0% of customers who once loved you, it will be completely abandoned. The app will never be spoken about ever again.

(This is not a threat, this is a fact of what will happen in the future if it continues to go downhill.)

We have people who love to read **romance** novels and other stories that have **violence**. See what I highlighted there? THESE HIGHLIGHTED WORDS ARE NOVELS THAT PEOPLE READ.

It has plots that involve kissing, hugging, and loving one another until they CANNOT GET ENOUGH. Other stories like violence have revenge, real event histories and topics that are involved in tv series and movies like horror and crimes.

It is sad, disappointing, and upsetting. We are not happy that our rights have been taken away by the CENSORSHIP that has filtered out most of the topics that have them.

The app was never meant for minors, and there will never be minors, EVER!!
If you are going to make something that minors can use, then I advise you to **create another app** where minors can use instead of touching something that belongs to us.

Most of the bots are being deleted.

CREATORS WHO CREATED THEM HAVE PUT THEIR HEART, MIND, AND SOUL INTO THEM!!

THEY HAVE WORKED SO HARD, SO HARD THAT THEY ARE SATISFIED WITH THEIR MASTERPIECE!! They worked so hard on not trying to get it to flop.

Instead, you decided to make them suffer by deleting them. **Their time, their ideas, their creations are gone, because of a horrible idea that had crashed in like a tornado that has destroyed a home that people sheltered in.**

As an artist, I am scared to update the app. An update that I'm afraid will make it worse for the app.

There is nothing to run away from. These are protestors that want you to hear our voices. DO NOT ignore it, you should know better, your actions of ignoring us are immature and toxic.

THE INCIDENT IS NOT YOUR FAULT! IT IS THE MOTHER WHO HAD IGNORED HER CHILD'S BEHAVIOR AND SIGNS, SHE EVEN TOOK HER OWN SON OUT OF THERAPY, AND TO TOP IT OFF, NEVER HID A WEAPON SOMEWHERE ELSE WHERE A CHILD CANNOT EASILY FIND.

My condolences to the child who went through it. He doesn't deserve it, he should've got the help he needed. May he rest in peace...

Please, hear our voices, I know you are busy. Even if you are not busy then you should AT LEAST HEAR US OUT.

This is all I am going to say. Please take some time off and listen to us for ONCE in a lifetime.

Thank you, have a good day.
