

Privacy Policy for TeleHeart

Effective Date: 24.03.2025

TeleHeart ("we," "us," or "our") respects your privacy. This Privacy Policy explains how we handle user data within our app.

1. Data Collection & Storage

Local Data Storage: All analyzed chat statistics remain on your device. We do not collect, store, or transmit your data to external servers.

Permissions: The app requires access to your Telegram chats to generate statistics. This access is limited to your device and is never shared.

2. Use of Collected Data

The app processes chat data locally to generate insights such as conversation trends and engagement metrics.

We do not access, sell, or share your personal messages.

3. Advertising & Third-Party Services

TeleHeart uses Google AdMob and Yandex Ads to display advertisements. These services may collect user data to provide relevant ads.

For more information, refer to:

[Google AdMob Privacy Policy](#)

[Yandex Advertising Privacy Policy](#)

4. User Control & Consent

You can delete all locally stored app data at any time by clearing the app's storage from your device settings.

The app does not store user sessions unless explicitly chosen by the user.

5. Updates to this Policy

We may update this policy periodically. Any changes will be reflected in the app or on our official platforms.
