K-12 Math Overview Survey for All-Stakeholders

K-12 Math Standards
All-Stakeholder General Survey

The North Carolina Department of Public Instruction (NCDPI) K-12 Math team requests input on the current academic standards for K-12 Math to inform revision decisions to the current standards. The State Board of Education policy specifies that NCDPI survey and collect feedback on the current standards from educators, administrators, parents, students, institutions of higher education, business/industry representatives from across the state, national organizations, and other education agencies. Updates to the current K-12 Math Standards may include clarifications, additions, deletions, or replacements to the current standards.

This survey, linked above, allows participants to provide general feedback regarding the K-12 math standards. The survey asks 10 questions about the current K-12 math standards. Participants can answer about a specific grade/course, or based on an overall perception of the K-12 math standards. In addition to this survey, there will be several other opportunities for participants to provide feedback on the standards throughout the revision process.

This survey will take approximately 10-15 minutes to complete. The survey will remain open until 8 a.m. Monday, Oct. 21, 2024. Please note that Pender County Schools is located in the **Southeast Region** and has a **PSU code of 710 in the dropdown menu** when searching for Pender County,

If you would prefer to provide more specific feedback on the standards in each grade or course, participants can use the link below to answer questions about the K-12 math standards on a course-by-course and standard-by-standard level.

K-12 Math All Stakeholder Standard-by-Standard Survey

Thank you for your time and input. Your feedback is extremely valuable to the K-12 Math standards revision process.
