Midview Families:

This year at Midview Local Schools, your student will be participating in various classroom, district, and state-wide assessments that will help to communicate their academic progress and to prescribe relevant research-based instructional strategies integral to their educational pathways and compile the district's state report card. Like last year, students will be taking the Ohio State Tests in grades 3-12 covering different subject areas dependent on your student's grade and/or course choosing. This test is given on a Chromebook and challenges students on multiple fronts to gain a better understanding of their progression towards mastery.

For the 2022-2023 school year, the testing dates for your student at East Intermediate School within Midview Local Schools are as follows:

Spring Test Window:

ELA - April 19th (part 1) & April 20th (part 2)

Science (5th grade) - April 26th (part 1) & April 27th (part 2)

Math - May 3rd (part 1) & May 4th (part 2)

It is important that your student be present, prepared, and well rested during these testing windows so they have the best chance to succeed and display their abilities. If for some reason you know your student will be absent during one of these windows, please communicate that to your student's building administrator as soon as possible. If you have any questions, please contact either contact me or the Midview Local School Board of Education office at: (440) 748-5353. We look forward to celebrating your student's success in all that they do!

Meredith Udris

Principal

East Intermediate School
