Exciting and fun amusement park - Chloe

Since I wanted to stay at home, my mom picked me up and took me to an amusement park.

I went there and rode a lot of rides like Viking. I was hungry, so I ate a Colpop, a slushie, and black bean noodles. It was really fun.

Chuseok - Leo

I went to my grandmother's house today. I drove 2 hours by car.

I went to my grandmother's house. As soon as I got there, there was a cat.

After playing with the cat for a bit

I went to a restaurant with my grandmother. There, we had grilled fish, tteokbokki, and octopus. It was really delicious. Then, I went to the Royal Tomb of King Sejong and saw the statue of King Sejong.

I looked at the sundial and the water clock. Then I returned to my grandmother's house and played with the cat.

Then I went home again and had it for dinner. I ate ice cream and Shine Muscat. It was delicious.

We finally arrived at the pension.

I met my paternal grandmother and grandfather at the pension.

After eating, I went to the market, rode a donkey, and ate fire sushi.

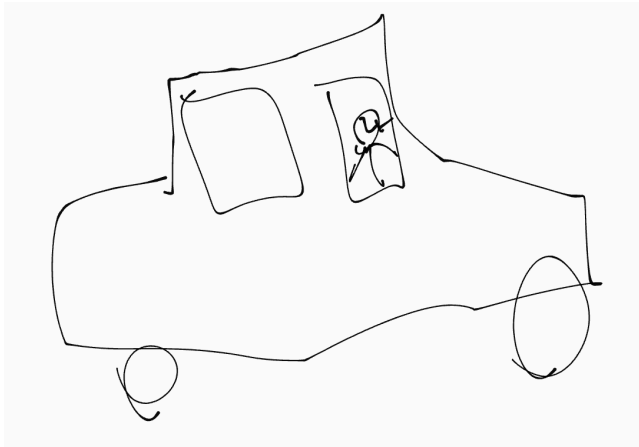

I went back to the pension and ate meat for dinner.

On Monday, we had a light breakfast, went diving in the valley, and caught some snails.

On Tuesday, my family went to my grandmother's house.

As soon as I got there, I had dinner with my uncle. I'm so lucky, I'm playing this game did it

We ate sushi for lunch on Wednesday and played doll games.
And then I got in the car and went home.

Chuseok - Soyeon

I went to my close sister's house a day before Chuseok.

I made a friendship note at my sister's house, went to eat makchang, ate it all, and then visited the neighborhood, came to my sister's house, played, woke up a night early, and left for my grandmother's house to pick her up. On the way, I stopped by the rest stop to buy food and ate udon and ramen with my father. After arriving at my grandmother's house, I watched a little TV and went to my uncle's house with my grandmother. On the way, I ate snacks I bought at the rest stop and ate tangerines, and I was chatting with my grandmother, so I arrived quickly.

I was bored playing a board game at my uncle's house, so I was reading a book, and my dad asked me to play yut, so I played yut, ate while watching my phone, and went to my house and slept right away.

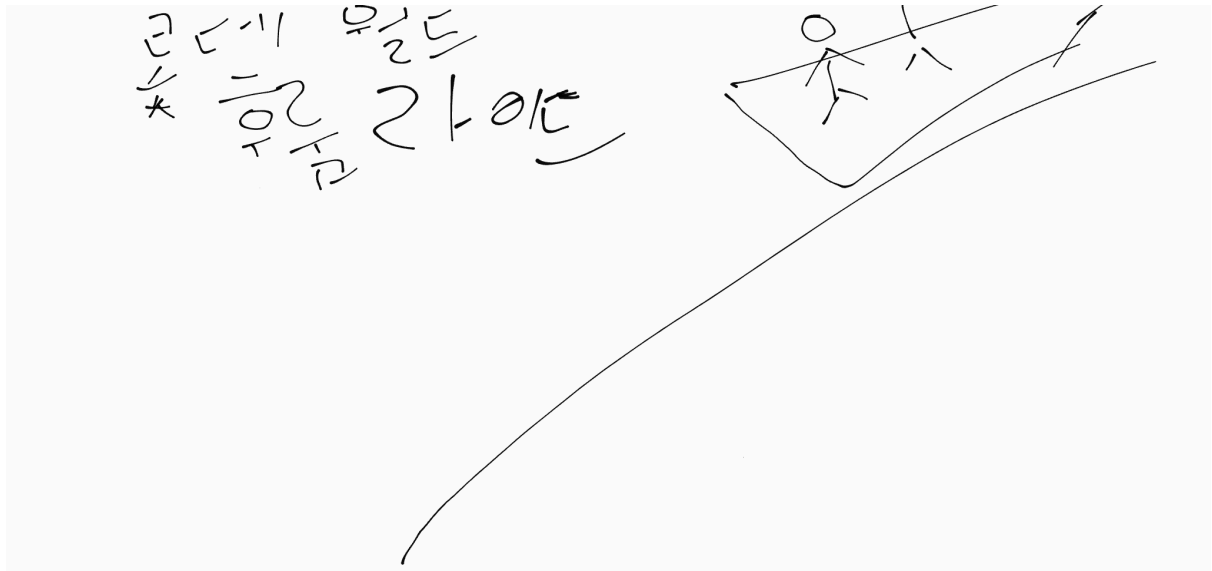

I woke up early, got in the car, got to my oldest dad's house, and I made jeon, and my dad said he was going to play billiards, so I came out of billiards, ate yut, and arrived home, and fell asleep right away. It was a rewarding day

Kukkiwon (World Taekwondo Headquarters) - Lucy

I woke up early in the morning and got ready to go to Kukkiwon. I was so sleepy because I woke up early.

However, I had to go to Kukkiwon, so I prepared quickly. After finishing the preparation, I took my mother's car and left. When I arrived at Kukkiwon, almost all the children had

arrived. I waited a little while practicing, and then followed the teacher to Kukkiwon. But I had to wait there, too. So I kept waiting. After waiting, it was my turn.

I did Pumsae 4 and 8 chapters. And we had a contest. I don't think the contest is for me.

I came home after finishing the review of Kukkiwon.

Happy Chuseok - Heewon

I went to my grandmother's house in Daejeon at 3 a.m. last Sunday. I was so sleepy that I took my dog with me. At around 5 a.m., I went to the rest area and ate cup noodles. After eating cup noodles, I thought my dog was stressed, so I took a walk for about 10 minutes. It took about 3 hours and 40 minutes because it was Chuseok.

It was hard to ride a car for such a long time after such a long time. Still, I felt so good because my grandmother welcomed me. My grandmother gave me delicious fruit for a good job. The fruit was fresh and sweet. My family watched the new movie "Pilot" while eating fruit. My family enjoyed the movie so much. In the afternoon, my family went for a walk again. The weather was hot like a jjimjilbang, unlike taking a walk at a rest area. My mom bought me ice cream because the weather was so hot.

When I went to my grandmother's house and looked at Kakaotalk, there were a lot of Kakaotalk messages in the band group b (club). I practiced the ukulele. The code was easy, but the technique was difficult, so I practiced a lot. Still, my skills improved after practicing. I also texted my friends through Kakaotalk.

The next day, I went to my grandmother's house. My cousins were here. I had galbitang for lunch. I liked beef bone soup and it was so delicious. After I finished eating, I went to the bath with my aunt, grandmother, mother, and sister. There was no one in the bath, so I played with my aunt and played with her. After playing in the bath, my mother bought me chocolate milk. It was so delicious. I ate Korean beef for dinner. There were seasoning and regular Korean beef, but the seasoning was better for me personally. I came out to the apartment complex for a walk and the sky was so beautiful.

I ate galbitang again the next morning. It was so delicious. I felt good because I ate a lot since morning. I watched TV with my grandmother. I went to my grandmother's house around 11 o'clock. I ate raw fish for lunch. It was so fresh and delicious.

My dad asked me to go to Homeplus. I bought several snacks at the mart. I bought my favorite chocolate song. My sister bought chicken pop light. And I bought seasoned chicken and original chicken for dinner. My dad bought induction. He said he would give it to my grandmother as a gift. So I bought it and it cost about 100,000 won.

I went home early in the morning the next day. I think it took about 3 hours to go home. This Chuseok was so much fun and exciting. I look forward to the next Lunar New Year!! Because I am looking forward to getting together again at Lunar New Year. But I think I will meet my grandmother on her birthday.

Playing games with my younger brother - Benny

I often play games on weekends. I usually play with my younger brother for an hour or two. I enjoy playing Pokémon games with my younger brother again today. I'll just briefly explain to you later to understand what's going on. First of all, it's like a game that fights Pokémon against each other, a fictional creature called Pokémon. There are various categories of Pokémon, such as flame, water, grass, electricity, ground, rock, steel, evil, Fairy, normal, fighting, ghost, flight, ice, poison, and Esper. Each type correlates with each other, which is divided into weaknesses or little effect. I have a battle with my younger brother. My younger brother, Seonbong, played the cast iron wheel, and my younger brother, Marily. Pokémon are classified as race value. They are divided into (physical) attack, special (indirect) attack, (physical) defense, special defense, and speed. Marily used Aquazette, which is a weakness since water, Fairy, and cast iron wheels are steel and ground, but speed is faster and must be preemptive. And he gave away a full-type Mascana to target the cast iron wheel using a lethal weapon that converts it into a single-type ground. After that, I easily won because I had a dedicated Pokémon. I gave my precious Marily to soothe my younger brother who lost. I'm so cool.

Traveled on Wednesday - Claire

On Wednesday, my brother and I did something that was not planned. We went to Incheon with our cousin. (I don't know exactly.)

When I got in the car, I thought I would be bored because I heard it took a long time, but it was okay because I went there while eating snacks.

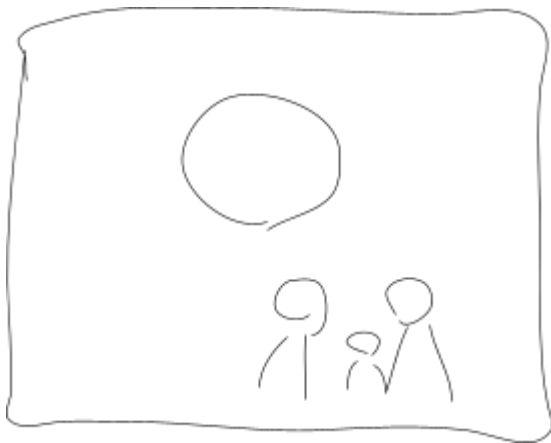

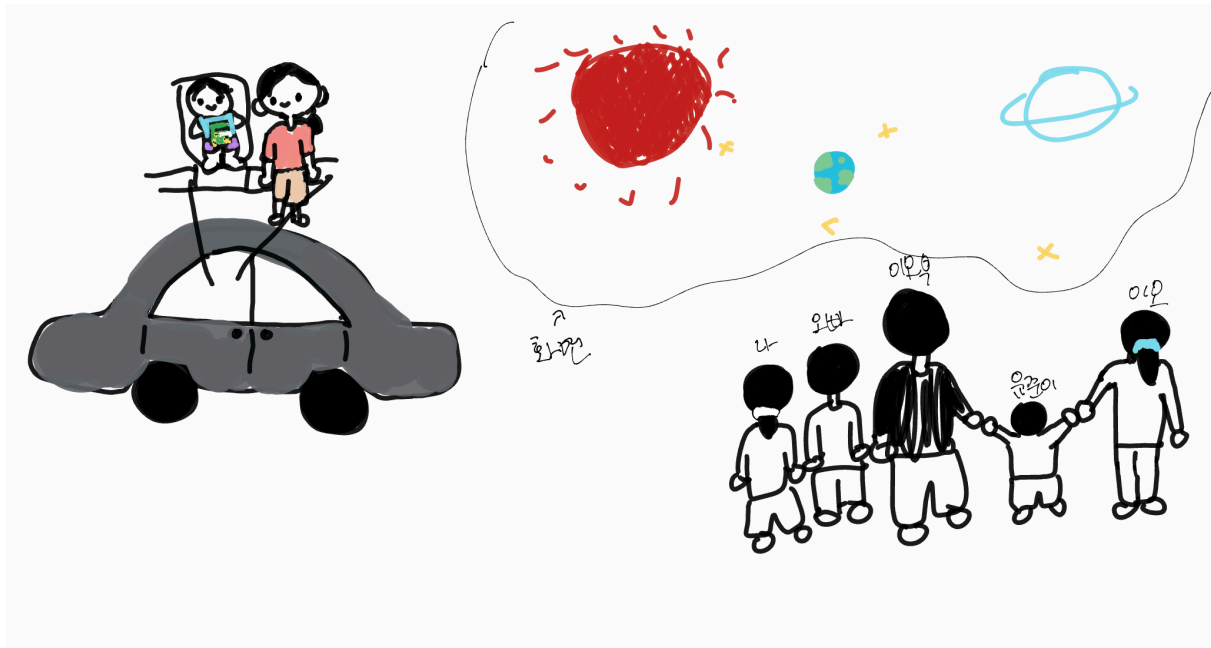

When I arrived, I got out of the car, and when I saw the exterior, I was surprised that it was so big. But when I looked inside, I was surprised that it was bigger. And it was about 2:40 and I waited until 3 o'clock. As soon as it was 3 o'clock, the video turned on from the ceiling. And after seeing it, I saw 'Re Space'

I went to this place and it was literally about the universe. The video turned on on the floor, wall, and ceiling, but my brother was very excited. On the way back home, my cousin, and my aunt slept. It was a lot of fun.

Food I ate during the holidays! - Jayden

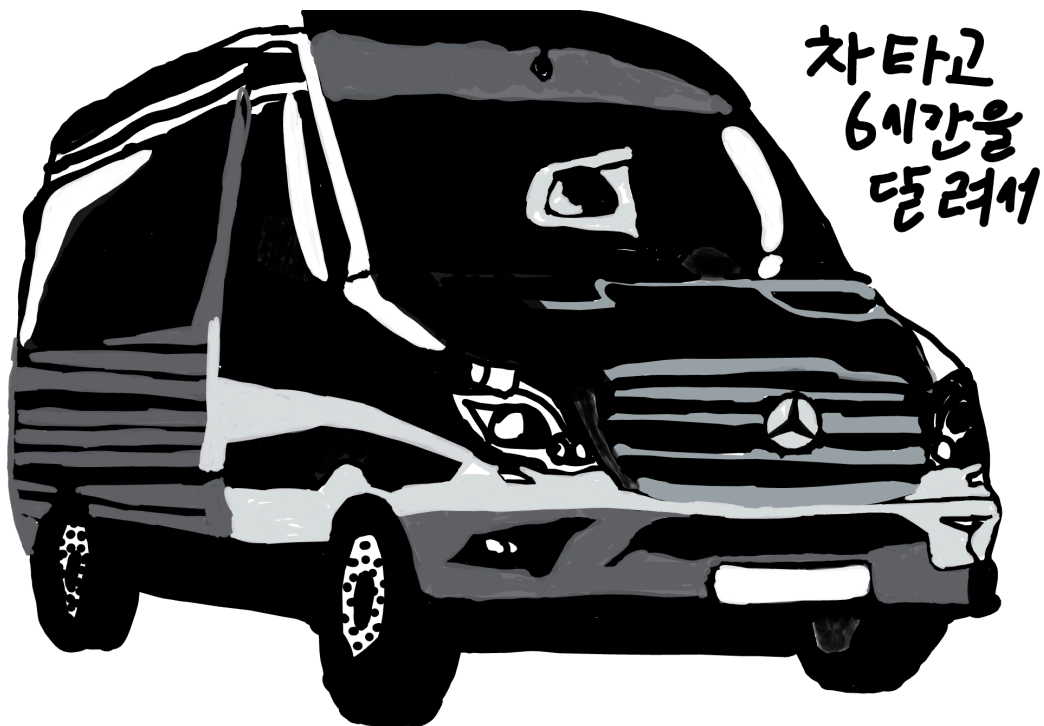

On Saturday, I ate raw flatfish and fried rice, Sunday I ate shine musket and jajangmyeon, Monday I ate raw red shrimp and raw rockfish. I ate pork belly on Tuesday and home-cooked meals on Wednesday.

Family Trip - Hae-jun

Chuseok has come. On Saturday, my family prepared to go to my grandmother's house in Daegu. It takes about 4 hours just to go, and because my youngest brother is 1 year old, it is difficult to go a long distance. I made sure to get ready and departed on Sunday. I also stopped by a rest area and ran slowly on the road. Fortunately, on this trip, my father bought a large Mercedes-Benz Sprinter and went there comfortably, and my youngest brother Kangin slept well, so I had no problem going there. It took about 4 hours and I was finally able to arrive in Daegu safely. As soon as I went, I played with my second brother, Jeonghan, at my

grandmother's house and left for Changnyeong, which is close to Daegu. Actually, it was because I was going to go to two hot spring hotels in Bugok, Changnyeong. I went to the hotel and found a room. Then I went and played in the hot spring until 12 o'clock. It was so much fun. And I ate chicken and slept comfortably there. The next day, I went to my grandmother's house again and played by catching bed in the stream in front of her house. Then, I went to another hot spring hotel at night and played again in the hot spring. Then, the next day, my family ate jajangmyeon nearby, went to my grandmother's house, saw my relatives for the last time, and came home. It was a really fun Chuseok holiday.

The day I went to the Kids Cafe-Hajia

I went to the Kids Cafe with my family. Then I went up and went into a net of big balls.

And when I came down and went on a slide, there were many fluffy models. So I went in.

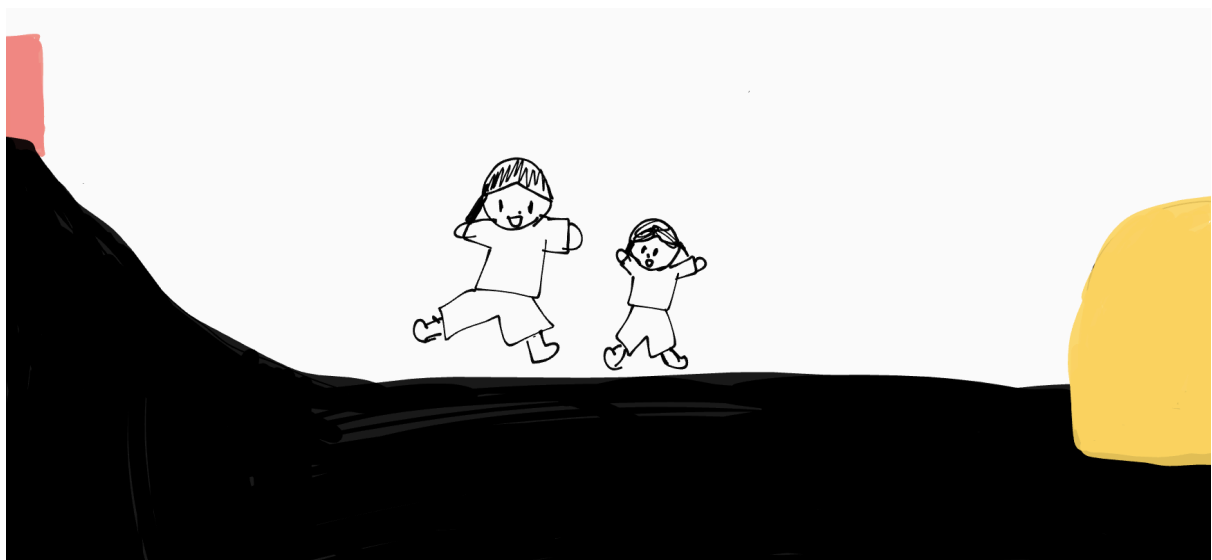

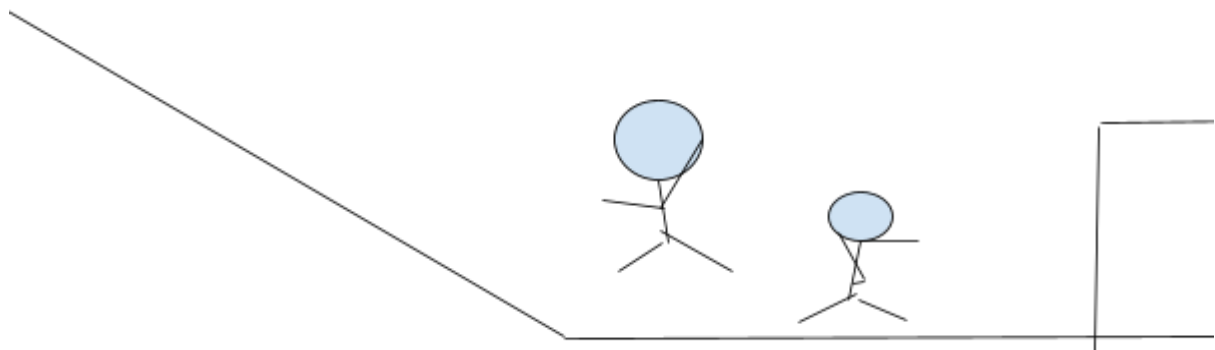

It was fun to go from there to where the trampoline was.

I could climb there, but it was too low. And I also rode the trampoline.

It was fun because it was slippery like a slide there. And I played with my 1-year-old brother, and I went down to the sloping place and hit my head on the side, and somehow I didn't cry.

And there was a game console there, so I played games. It was really fun.

My dad was good at games. And I ate rice cake and it was really delicious. I also rode a car, but it was really fun because I didn't have to step on the ground with my feet.

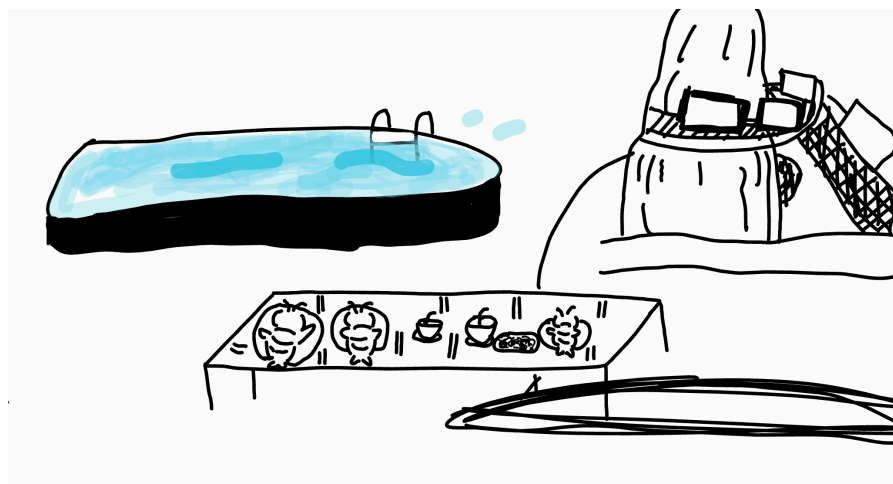

Vietnam, Nha Trang - Dayoon

My family went to Incheon International Airport after finishing my academy on Wednesday at 5 p.m. to catch a flight. As soon as I arrived at Incheon International Airport, I waited for my aunt and grandmother. After 30 minutes, my aunt and grandmother arrived and my uncle arrived afterwards. Two hours later, I went through immigration to catch an evening flight. After completing the immigration process, all my family members flew 3 hours later and arrived at Nha Trang 5 hours later.

After arriving at Nha Trang, I waited for almost an hour on a buggy. I slept a lot on the plane, so I wasn't very tired, but my family looked really tired.

Then, the next day, I went down to the first floor for breakfast. I loved rice noodles for breakfast, so I ate 4 bowls of rice at that time alone. Then, when I came back to the dorm, I slept for 2 hours maybe because I was too sleepy, and then I woke up and it was already 12 p.m. (Korean time). Then, I went to Vinpearl Land, and I ate roller coaster 3 times, spinner 6 times, and I went to see a magic show, and when we went, it started. Then, when I came back to the dorm, I fell asleep right away

Happy Chuseok - Yoo-Hyun

After going to church with my family on Sunday, I made jeon with my family. My brother put flour on the meatballs and skewers. And my father put egg water on it and fried it. Also, I picked skewers. And my mom prepared ingredients.

When I stick skewers, I picked ham, mushrooms, pickled radish, green onions, and crab meat in order. There are more than 50 skewers I picked. It was fun, but I worked so hard to pick one, so my hands were angry. And my dad baked skewer pancakes and gave me a bite. But it was so delicious that all the things that had been hard until now seemed to have disappeared. But I was sad to see my dad hurt from oil splashing when he was making pancakes.

I made all the pancakes and ate a few more, and it was so delicious. I was going to make all the pancakes and rest, but my mom gave me 10,000 won and 30 minutes of the game. So I was so happy and fun. I want to do it again next Chuseok.

What happened during Chuseok - Ju-won

I played Yutnori at the center on Friday before Chuseok.

There's also a prize.

My team came last but it was fun.

The next day, my family gathered to draw and play with my cousins.

I was proud that my younger brothers liked it, too.

After playing with my cousin, I went to the PC room and played a game.

After finishing the game, I went home and it was a long time.

I slept. I held a memorial service the next day.

I ate after the memorial service.

It was really good. Then my grandfather and uncle went out with pocket money

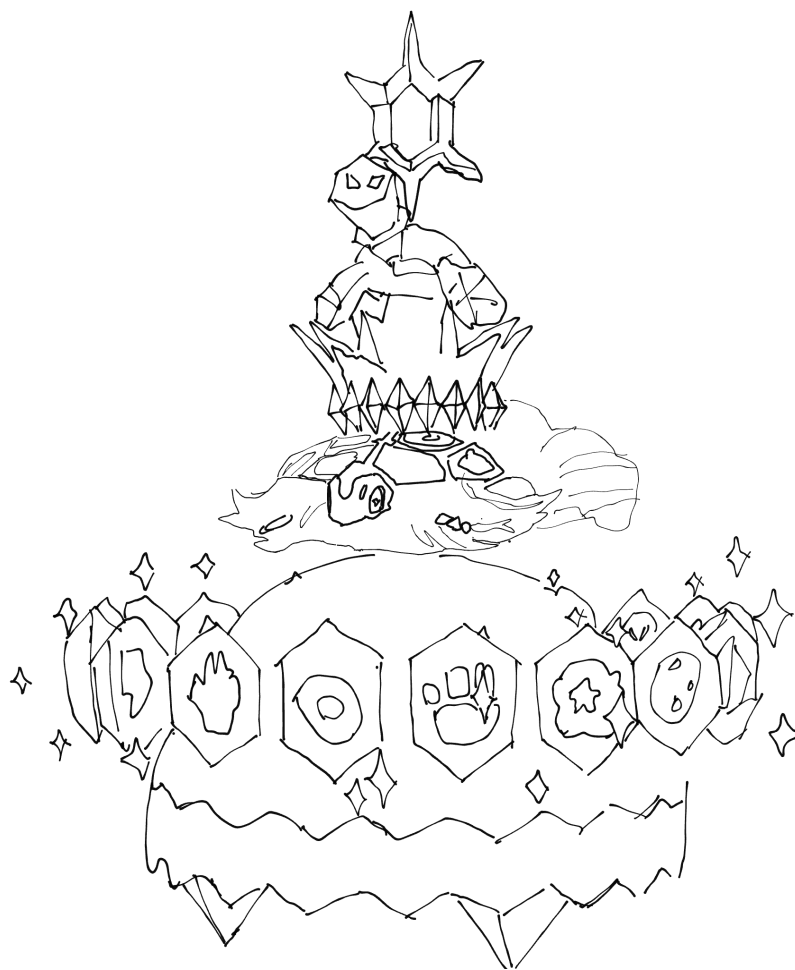

While playing, my cousin's aunt also went home.

Pokemon Card Shop - Hayul

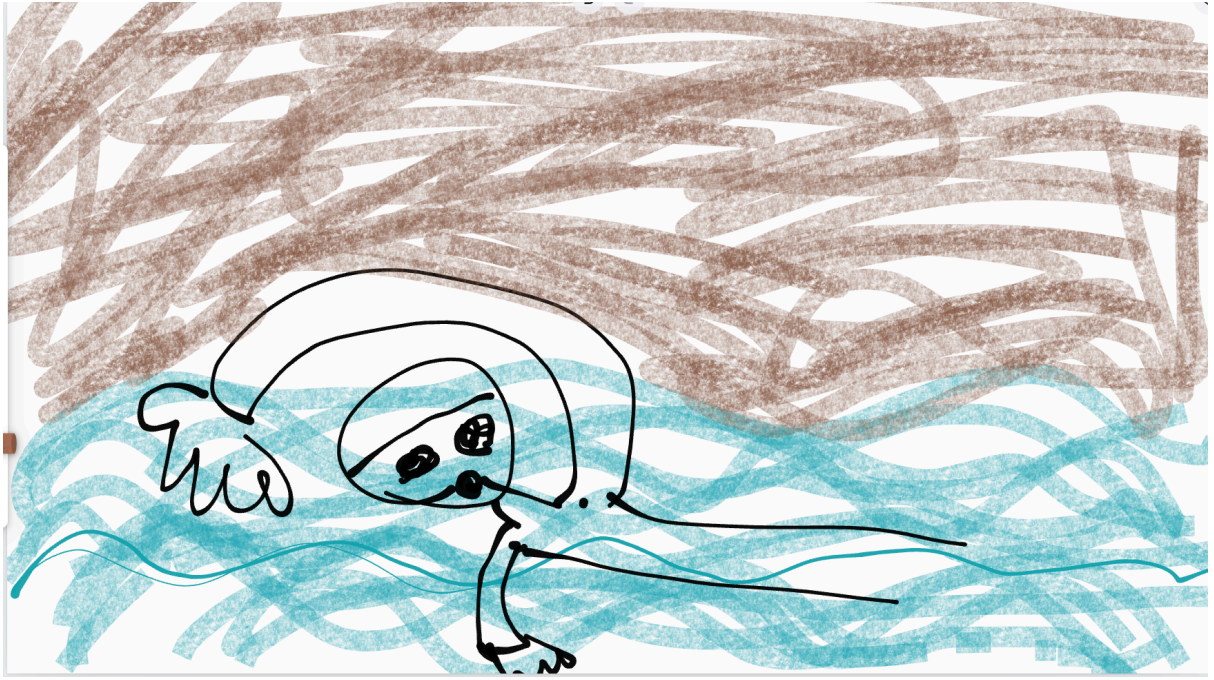

I went to my grandmother's house in Bucheon during Chuseok. While playing with my cousin at my grandmother's house, I remembered that there was a Pokemon card shop in Incheon nearby, so I went to the card shop.

As soon as I entered the card shop, my mouth dropped. This is because the card training facilities and cards and card products were placed in such a way that they could not be provided. Among them was the Scarlet & Violet 7th Stella Miracle that I wanted to buy. I bought it and my cousin bought the 6th Scarlet & Violet Night Wanderer. My brother and I both felt good. And I opened the card pack at home. Then Terrapages ex ur came out. ur is the second best rating. It felt so good.

Chuseok - Jaea

We're leaving for Busan on Saturday. We played Pokemon Go on our way
I went to bed after I arrived
I received 50,000 won of pocket money on Sunday. I went to my
great-grandfather's graveyard.
I had a lot of fun driving RC cars when I got home
I was playing RC car and the battery ran out so fast, so I was very
disappointed.

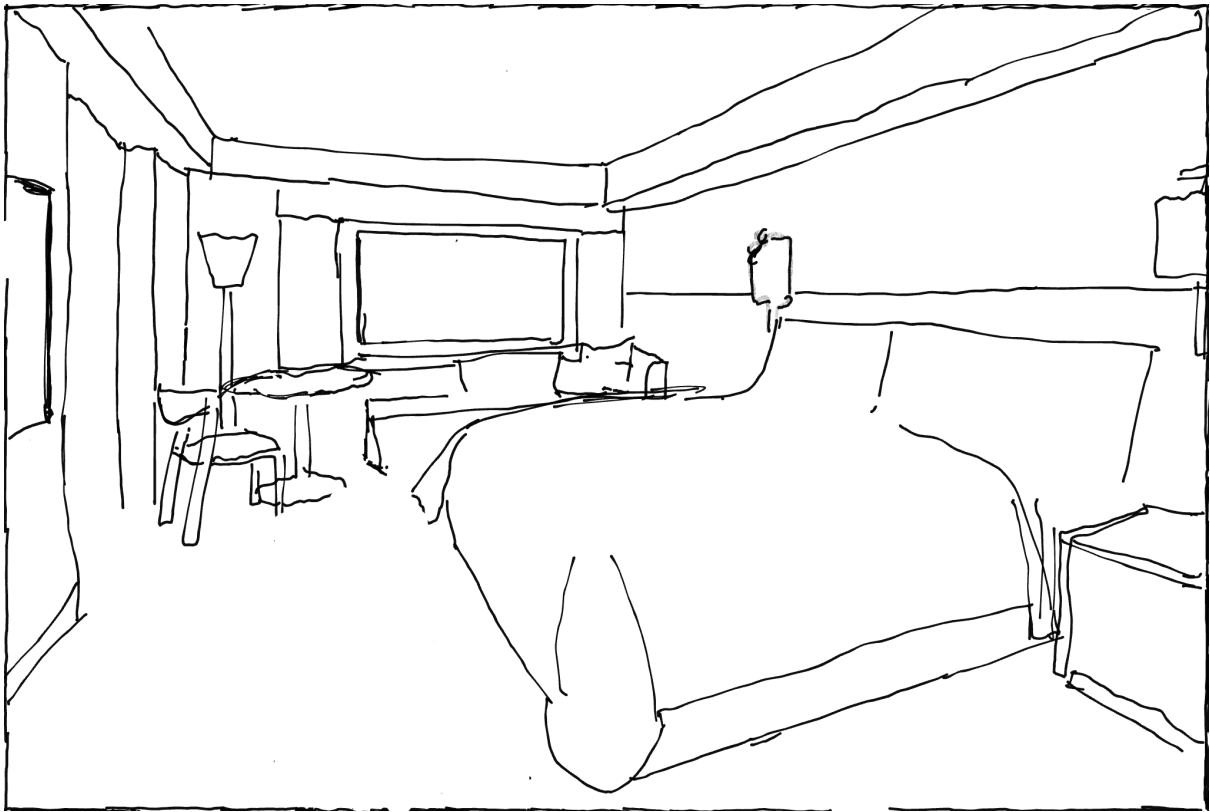

A fun trip to Busan with my family - Jeongbin

I went to Busan and went to the hotel first. I liked the hotel because it was a 5-star hotel.

Then, I went to the market and ate delicious food, bought Japanese cup noodles, and had fun.

I came to the hotel and went to the swimming pool. It was fun to swim. I rode the cable car the next day. It was really fun. I also took the train to see the sea. It was really fun. After coming to the hotel, I went to the dumpling place. There was ramen, so I enjoyed it. After coming to the hotel, I swam again. It was really fun. The next day, I went home and slept.

The day I went fishing - Jisoo

I went fishing with my dad and twin sister. While going fishing, I went fishing while playing games with my twin sister.

I went to the convenience store with my dad and twin sister because I needed to buy something to go fishing. I went to the convenience store. There was a cute cat. My dad bought me raw beef, water, ramen, etc. while touching my twin sister and cat. We too

Touching Yang, I bought snacks, jelly, drinks, ramen, etc. Arrived at the fishing spot. Arrived, unpacked, dad

I was ready to go fishing. I ate ramen because I was hungry. After finishing ramen, my dad went fishing and we played a game

I was standing and playing. When I was playing, it was already 12 o'clock. I was about to go to sleep when I heard "I caught a fish" outside.

So my dad came out knowing how to catch a fish. But my dad really caught a fish. So he caught a fish

I kept looking around. I was so sleepy that I went to sleep. When I woke up, it was 10 o'clock. I went out to see if there were any fish, and there were 3 more fish. I was so excited that I jumped. I was hungry while watching the fish again, so I ate ramen again, and now I have to go home, so I packed and got in the car. But my dad bit me

I left the flag outside for a while, but the fish died. It was too bad. I abandoned the fish well and went home.

It was so sad, but it was so much fun. I want to go fishing again next time.

What happened at my grandmother's house - Chaeyul

Last Sunday, I left for my grandmother's house. I was excited because it was my first time in 8 months. I felt really good because my mom told me to eat a lot of delicious food! It was difficult to go to my grandmother's house because it was a bit far away. Still, it was okay.

When we arrived at my grandmother's house, my grandmother and grandfather welcomed us. And I ate delicious pancakes, pancakes, and pork belly. I also ate ramen and Korean beef bulgogi. It was really delicious! I ate food and played with my cousin. My cousin was 1 year old and seemed to like me. She followed me around and it was really cute. My cousin was excited, so I was happy too. I also received an allowance of 300,000 won! I saved all the money I received in a piggy bank.

It was exciting and nice to go to my grandmother's house after a long time. I wanted to go again next time. I was happy to have had many good experiences. Going to grandma's house is really exciting. I hope the day comes soon when I can go to my grandmother's house one more time.

COEX Aquarium - Eunchae

I went to the COEX Aquarium in Gangnam last Sunday in collaboration with the game Animal Crossing. Game characters welcomed me from the entrance. There are about 85,000 species of animals on display. I'm excited! It's said that it's 2 hours and 30 minutes at the earliest to see all the creatures. There was also a special exhibition hall, where the animals in the game were displayed under the title "Nook.inc Nook Ink (unusually, this is the name of the actual special exhibition hall!) Introducing the residents of the COEX Aquarium. There are so many different types of residents in the game that it took me 30 minutes to finish viewing the special exhibition room! Anyway, when I went into the main aquarium instead of the special exhibition room, the promotional video for the game was playing. The stairs were also plastered with games. I felt strange because the aquarium seemed to be serious about playing games. When I went up the entrance stairs, I saw the bones and characters of an ancient shark megalodon. The bones of the megalodon's mouth are about my height (about 139.9 cm), so how tall is it? I wonder why it is. I see fish in earnest. When I saw all the sea fish, we were selling a stamp book called "Get Together with Our Fish." The stamp book was 1,000 won and they said they would give

stickers to all the stamps in various places at the aquarium. Yay! My dad said he would buy it for me. It's a Chuseok gift... Anyway, in our fish, there were some fish that I've seen at least once, from loach and frog to exotic species and native fish. And I've seen some freshwater fish like guppy to fish research institutes, turtles called Amazon fish, otters, and so on, but I haven't seen half of the aquarium yet!! There must be a lot of creatures. It was amazing that the tunnel was like a long escalator in the mart. I think I came out after seeing almost all the aquatic creatures, from the dolphins. I felt like my eyes were turning blue. And finally, I bought a character doll with my pocket money. It was a really fun experience. The collaboration will be held until October 27th, so I recommend you to go!

Making a table - Hyoin

The wind blows lightly, but on a sunny day!!

Today, I decided to make a pretty soban myself with my family.

My family is making soban for the first time, so I was worried that I would ruin it.

I was a little excited about what Soba would look like in real life. Because I've never seen Soba in real life and I've seen it in books, so I was curious about the actual appearance.

My family went into the training room 10 minutes ago (a place that tells us how to make soban). There was a variety of nice soban that looked like many different things!

My family was divided into groups of two, and I made a soban with my dad. Still, I relieved my worries a little because I was in the same group with my dad.

The process of making soban was to sandpaper first and color second - wait until it dried.

I worked really hard on sandpaper and seemed to be one of my favorite activities. But the sandpaper ended so quickly that I honestly wanted to do a little more.

During the activities, there was an activity to watch the exhibition until it dried up, and to rest while drinking omija tea on the rooftop.

In the exhibition, the structure of the tiled house and thatched house was exhibited. It was fun and enjoyable because there were many experiences and activities to watch videos in the exhibition room.

I liked drinking omija tea the most, but I liked it even more because it was cool omija tea in a cool pavilion.

After taking a short break, I assembled a dried soban piece. First, the lower leg was assembled and then connected to the head.

However, I was a little embarrassed because my legs didn't fit well into the hole when I put the four lower legs into the hole, and it was that hard.

My dad and I worked hard to put all our legs in together and painted varnish. Among them, I saw a lot of white varnish lump in my eyes, so I worked hard to get rid of it. But it was very hard because it didn't disappear well.

It was my first soban making, and the process of making it was fun and enjoyable. I was very satisfied with doing this activity today.

Today, I made soban with my family, but later with my family, I want to make prettier and more diverse things than soban.

Late night snack - 🐔 Ha-eun

One Sunday after church service, Ga-young's family, my family, and Nami went to eat a mountain of gamjatang together for dinner.

A mountain of pork back-bone stew is a mountain of meat, so the name of the pork back-bone stew is a mountain of pork back-bone stew.

After eating, I went to ride disco pang pang pang to cool down my digestion.

I rode disco pang pang with my sisters twice.

Disco pang pang is my favorite ride, so it was fun to ride many times, and I went to the Disco pang pang clothing store and looked at clothes. And I went to the movie theater around 9 o'clock.

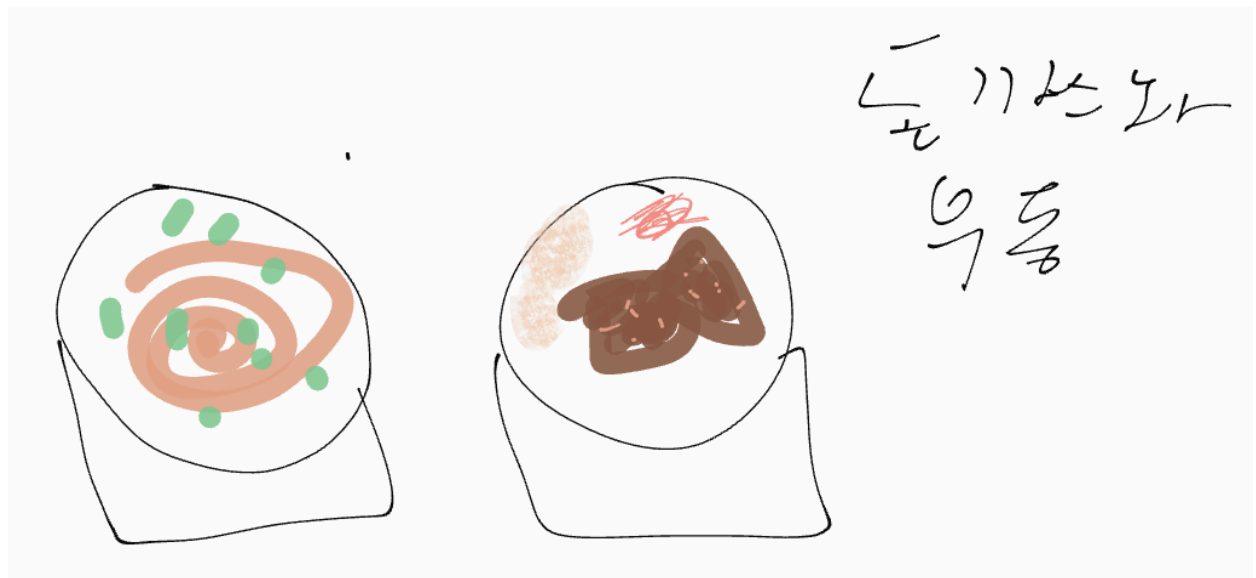

I watched Veteran 2 in the movie, but the movie starts at 11 o'clock, so I bought a drink, ate a drink, played games, and played YouTube.

And I finally entered the movie theater.

While watching Veteran 2, actor Hwang Jung-min and actor Jung Hae-in appeared as the main characters, actor Hwang Jung-min as a detective and actor Jeon Hae-in as a detective and psychopath, killing people.

After watching the movie, I took Nami and my sister home, and Ga-young's family and my family gathered and went to a snack bar near Goyang City Hall at 24:00 and ate udon and pork cutlet.

I didn't drink a lot of udon, but I had a lot of pork cutlet. I want to go to that snack bar again.

The day I went to my grandmother's house - Hee su

At 8:40 a.m. on September 17, I left for my grandmother's house in two months because it was Chuseok.

It was Chuseok day, so I took motion sickness medicine as usual because I thought there would be a traffic jam, but I arrived in less than an hour because of the traffic jam.

As soon as I arrived, I talked with my cousin and brother for 3 hours.

And I ate raw fish and yukhoe for dinner.

I was a little embarrassed because the raw beef was more salty than I thought, but I still enjoyed it.

I usually like raw beef, so I ate almost everything.

I got pocket money from my relatives and played for about two more hours before going home.
