

## Sessions: Garage, Storage, Basement

Start Date: \_\_\_\_\_

Category: Garage  
Category: Outside Storage Unit  
Category: Basement

Purpose: I am committed to the Organize by Method® process, I will do this category until finished.

Mindset: This category is a multi-owner category. Because it is shared with many members of the household, it will be important to get the owner of the item's permission for its final destination. Respect for a person's decision on their item will go a long way. Never mind that it's been sitting in your garage or storage unit for years, you still have to give them the option of what to do with their item. Give clear guidelines of what you are trying to accomplish, your timeline, and what your expectations are.

Essentials for getting started: Sticky notes, folding table or dedicated counter space, little boxes, big boxes that are drawer sized, separators for drawers, temporary storage boxes, etc.

In these areas you can expect to organize the following items.

- Sports Equipment
- Power / Lawn tools
- Outdoor furniture
- Outdoor games
- Seasonal decorations
- WorkOut Equipment

Notes: input your follow-ups for your desired outcome (ie. order a new filing system, wall system for tools, a closed rolling cabinet, shelving, get a handyman to hang bike rack, containers / box in box organizers, donate, sell, upcycle furniture, etc..)
