**During 2024 Zurr and Phelo would get into a relationship. But when Embroila heard about this she instantly made a gc with them in it.**

**Won't show due to privacy reasons.**

**When Zurr and Phelo were with each other, Embrolia eventually started drawing NSFW of them.**

# Embrolia’s Weird obsession with Zurr

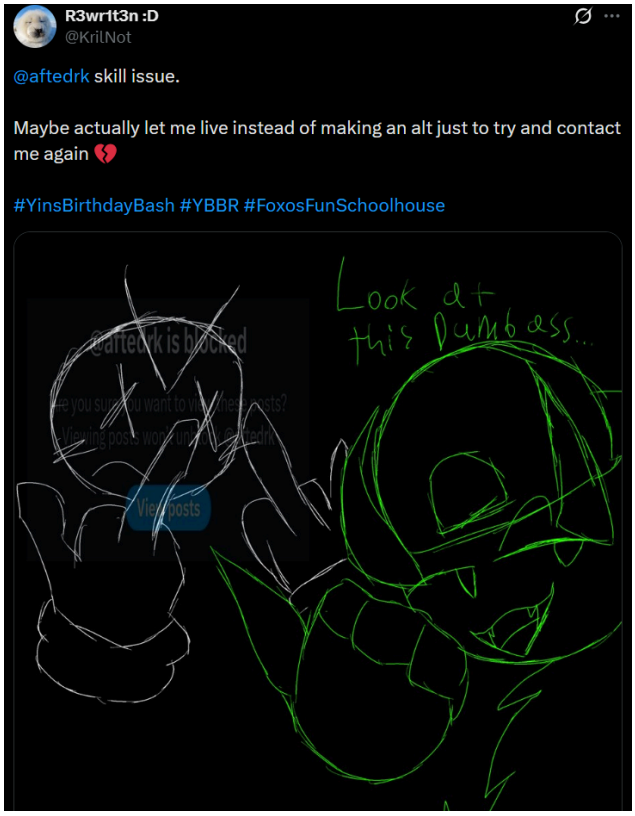

—----------

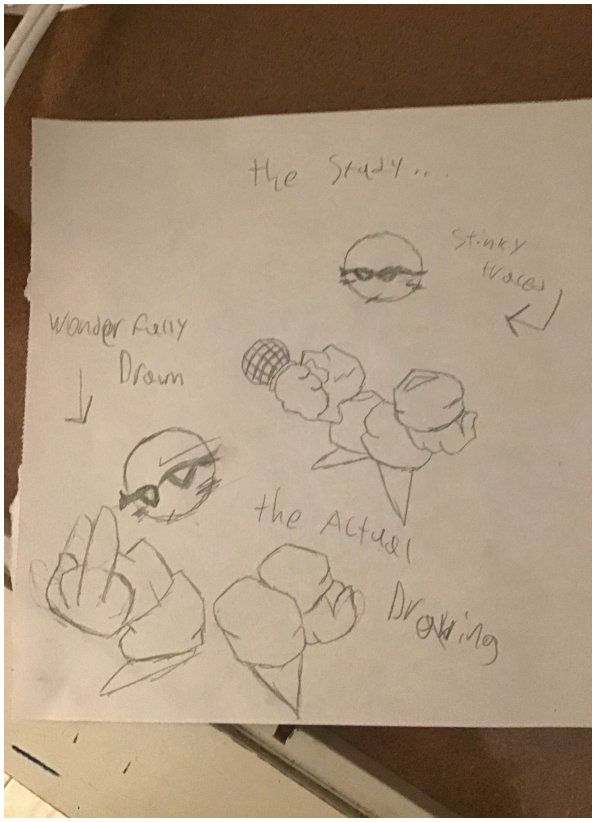

**(This part will contain some stuff from 2025 and 2026, so the 2024 part here isn't really entirely true, it just started in 2024)**

**After the 2024 controversy between Phelo and Zurr, Embrolia grew a massive hatred for Zurr. she started to copy their artstyle, obsess over their stuff, and constantly make fun of her stuff.**
**Her obsession was so bad to the point she ripped the entirety of YBBR out of spite. (In which, it failed miserably)**

**Twitter posts including Zurr’s old sona**

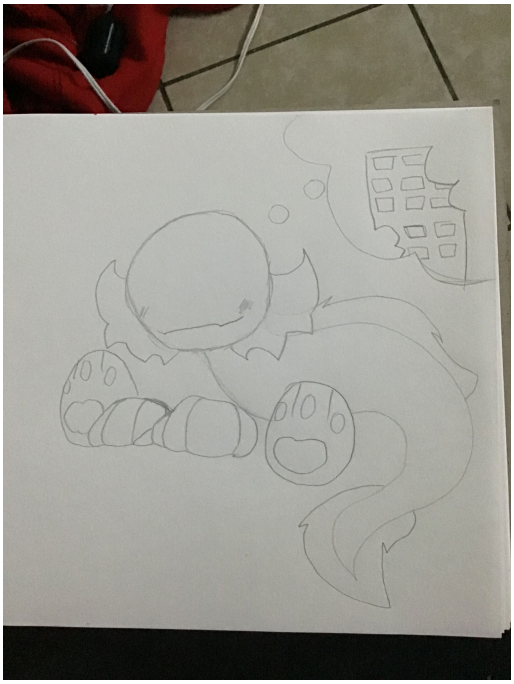

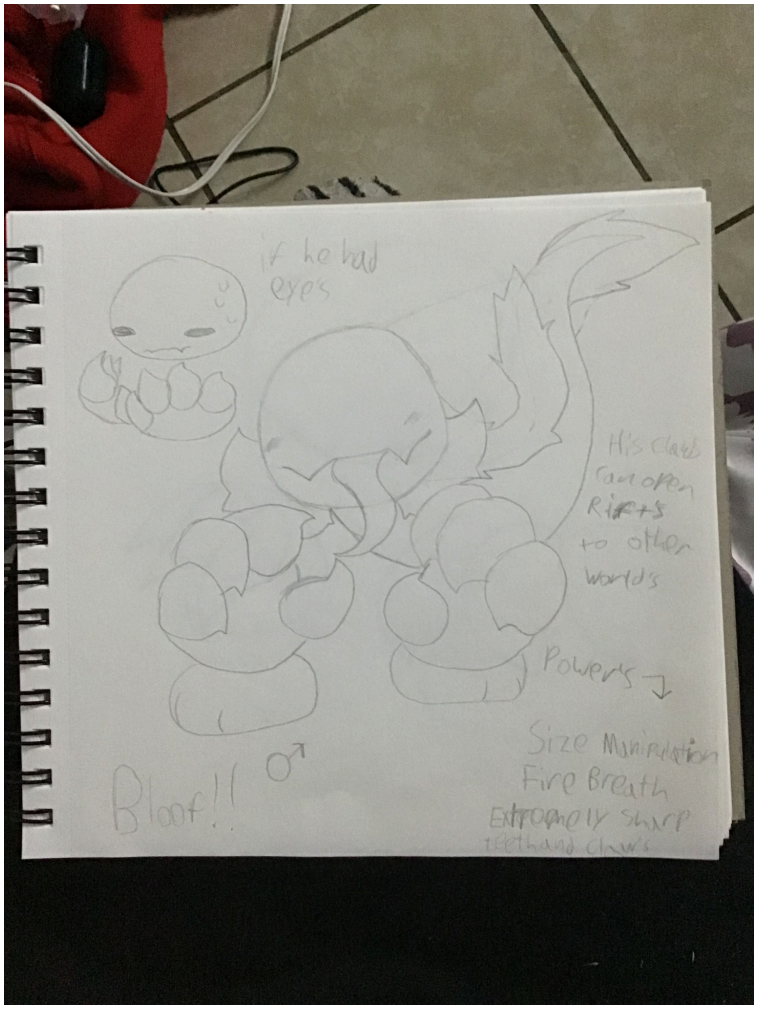

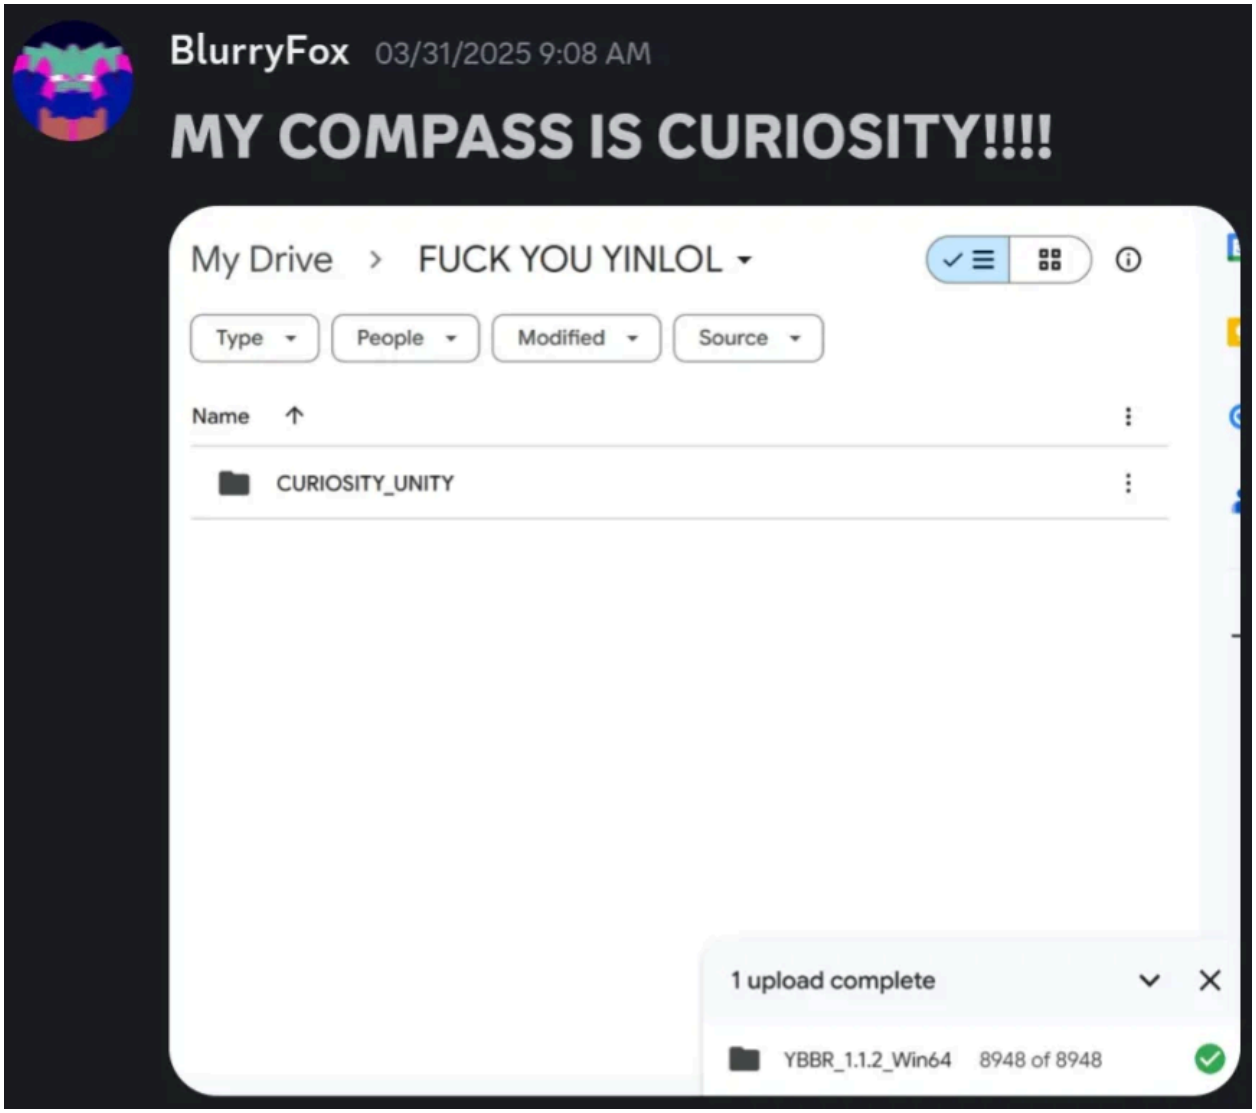

**Embrolia's attempt at replicating zurr's artstyle.**

**Embrolia also made several "Yinsonas", being OCs based off of Zurr's old sona, Yin.**

# Extra info

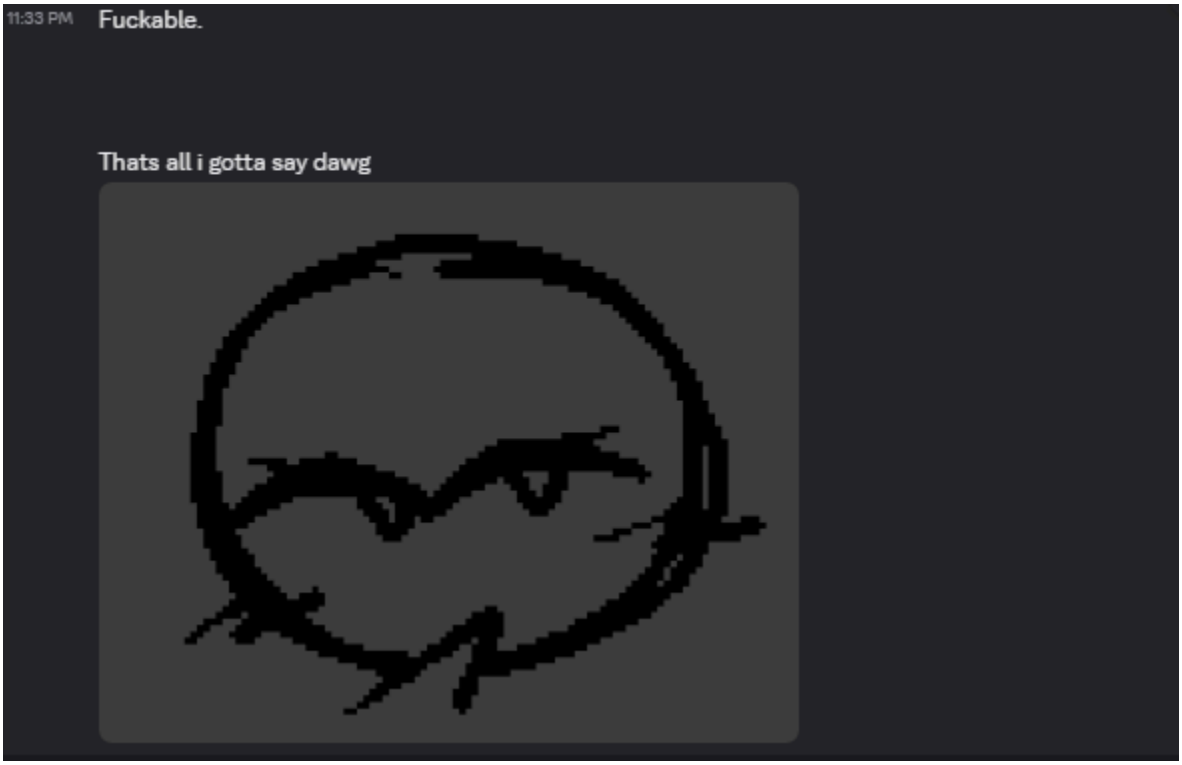

—----------

**In 2025, one time in VC with Phelo and Nash, Embrolia purposely used the wrong pronouns on Zurr, again out of spite.**

**Screenshots of embrolia sending Zurr drawings for no apparent reason**

**Really small section, but is really worth noting, Embrolia sent Phelo a picture of her ass during the grooming.**

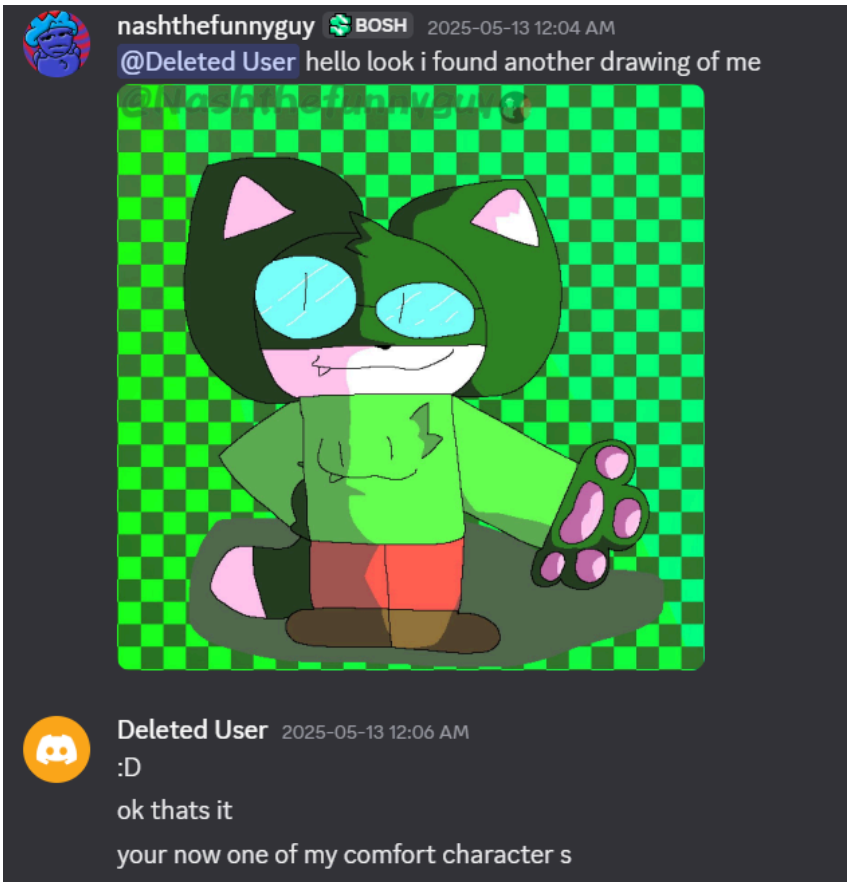

**(Yes, this is Embrolia, she just changed her whole profile to Zurr because of her obsession.)**

# GROOMING

**This section covers mostly everything Embrolia did to Nash during May/June.**

**Embrolia made an alt under the name Rokkutherokko, where she initiated ERP with Nash, Nash didn't know what the account was for before, until Embrolia told him.**

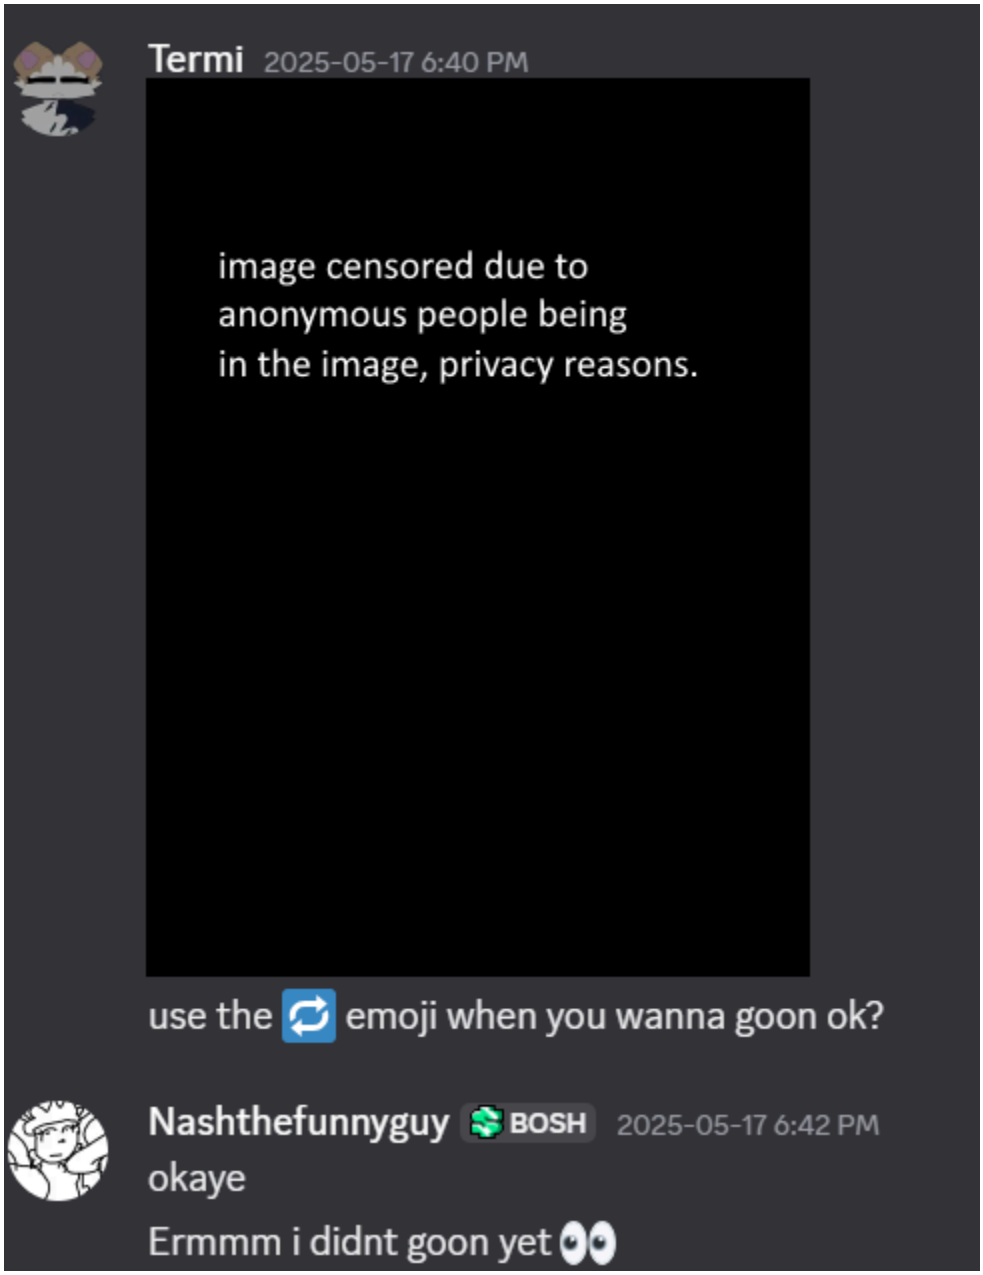

**She did giant ERP and other fetish ERP, and used Mrs. Pizza's character, Terminala, in one of the ERPs.**

**Embrolia gave Nash pet names. Notably she liked calling him a “bottom boy”.**

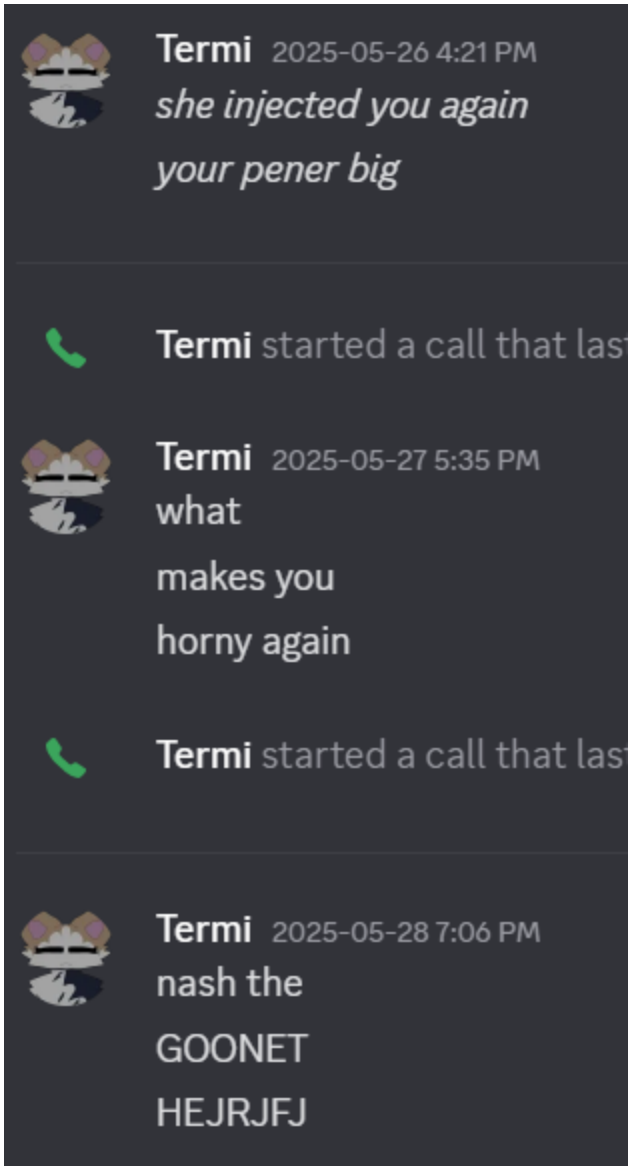

**Embrolia also played with herself on call in these ERPs, and once held her mic up to her pussy, and fingered it. She told Nash it “smelt like fish”.**

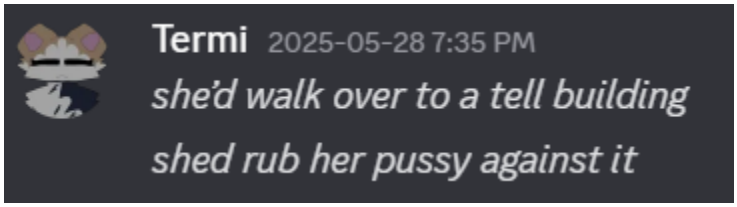

**During the last few days of the grooming, she started to tell him in VC how much she “loved him”, and started to act very affectionate. Even at this time, Nash was very uncomfortable with this, as he didn't want to be in a relationship with an adult.**

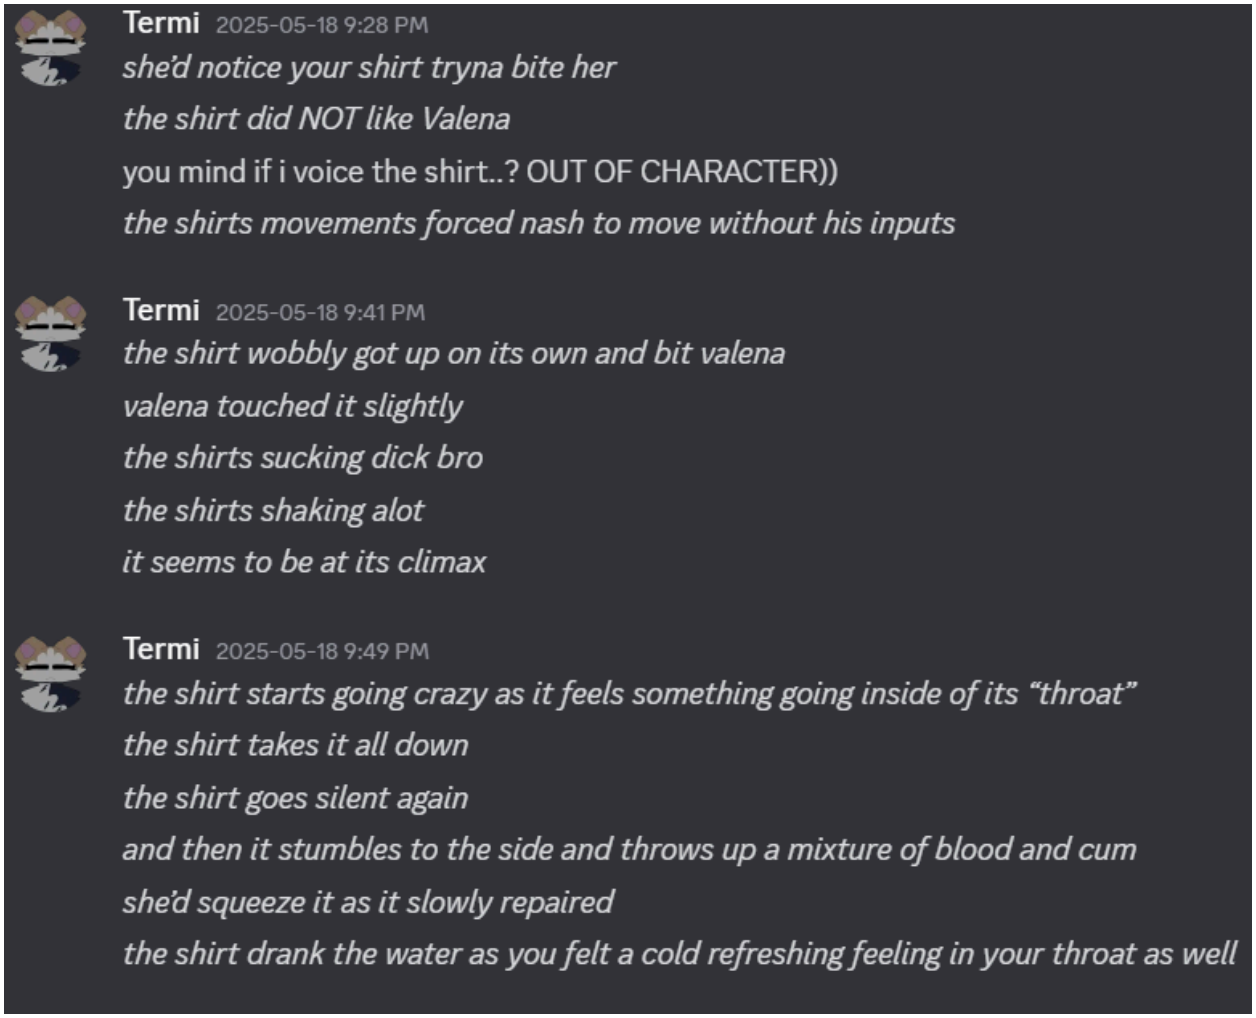

**To start, Embrolia told Nash to send the looping emoji onto Embrolias main at the time whenever he wanted to ERP.**

**The context to this ERP is she made the "sentient shirt" on Nash's sona suck him off.**

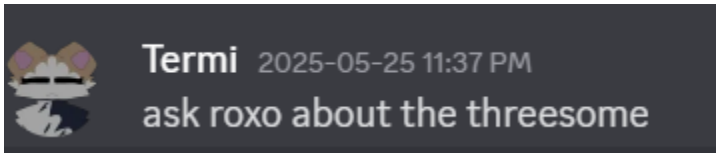

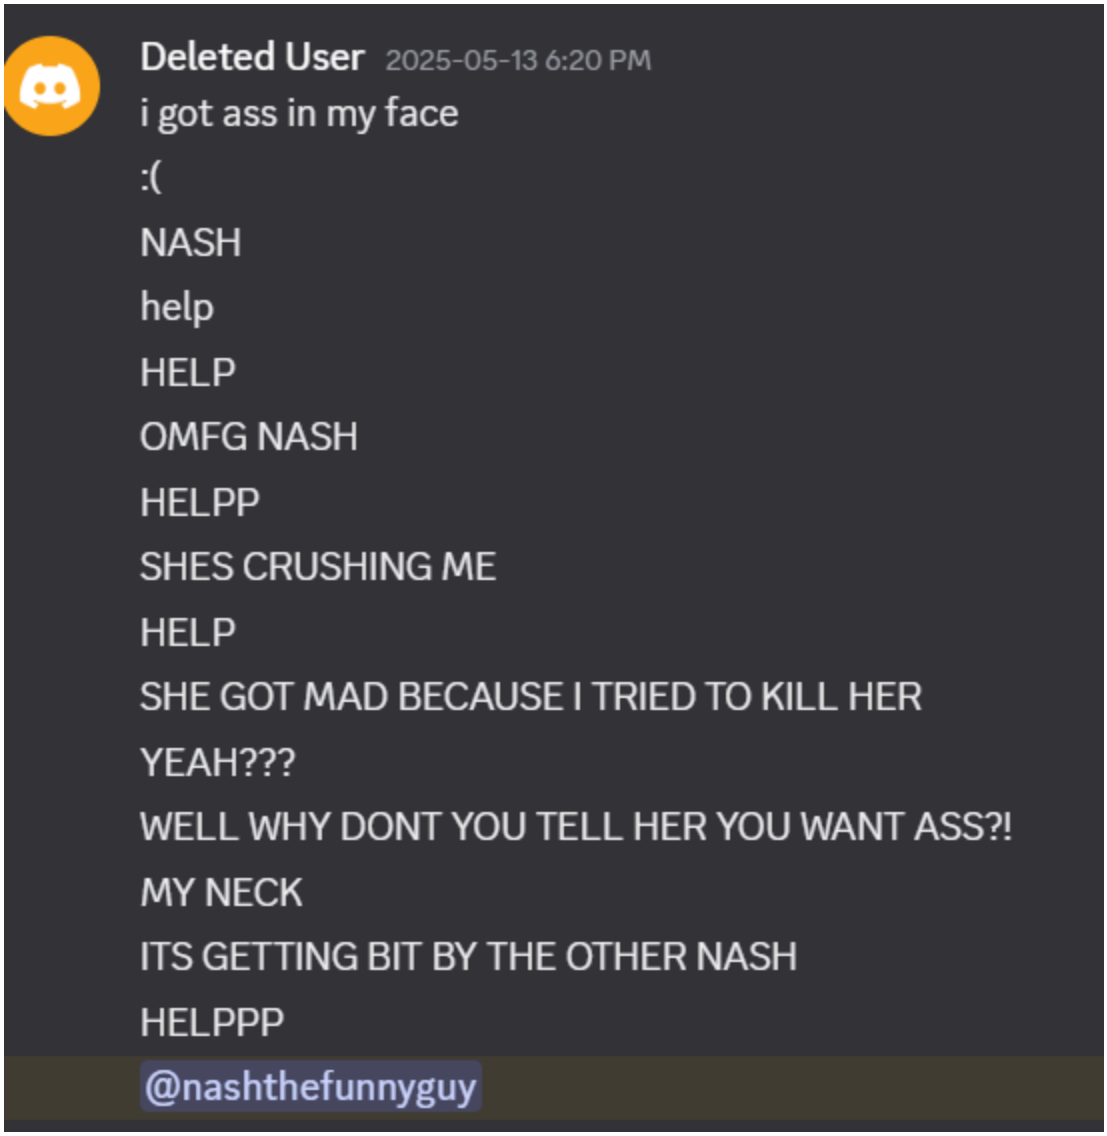

**The context to this ERP is it was a Terminala ERP, not much to say here.**

**Not much context here. Just really nasty flirting.**

**At one point, Embrolia wanted a threesome between Nash, Phelo, and her.**

**Context: As far as Nash can remember, Embrolia randomly started pretending Nashara (context below) was sitting on her face. This doesn't really fall under the grooming part, but happened during the same time Nash was being groomed.**

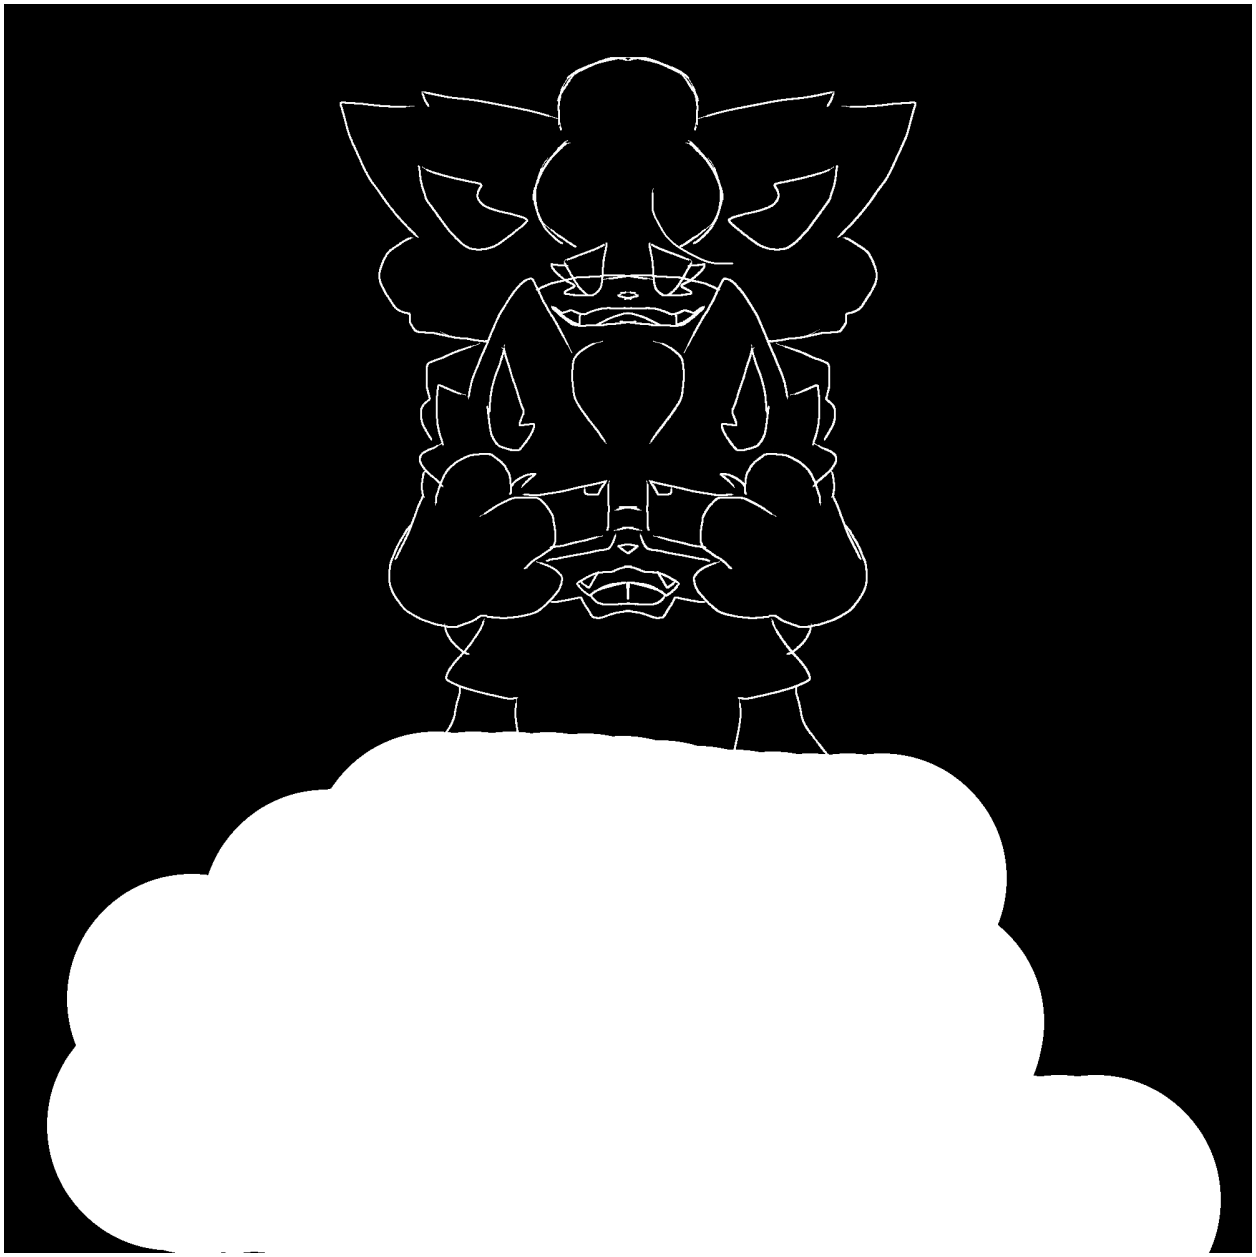

**—----------**

# NSFW/Weird Art

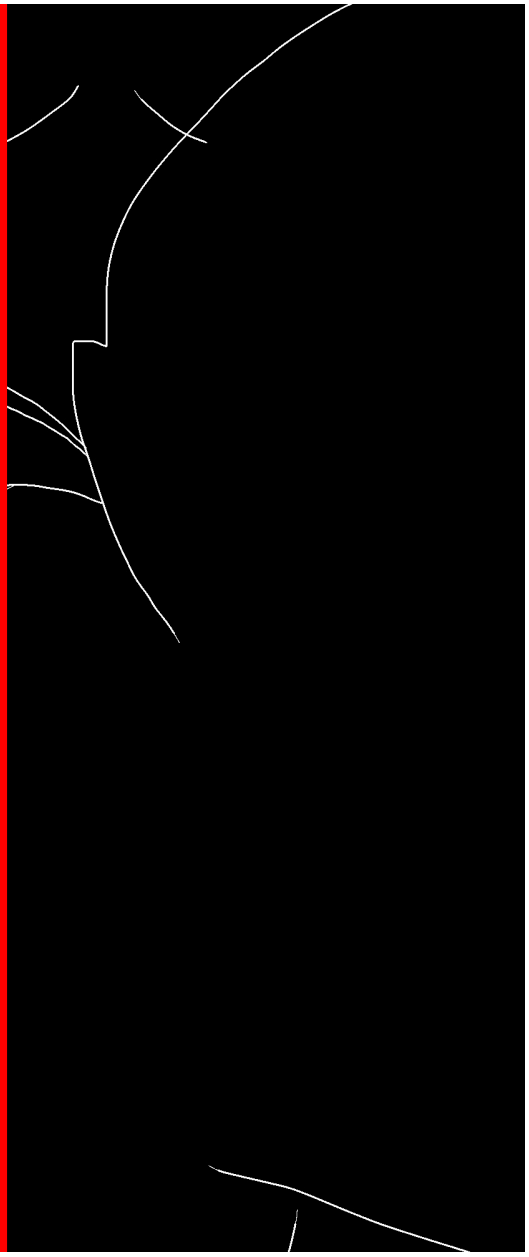

**During the grooming, Embrolia made a sexualized version of Nash's sona, named Nashara. She used this character in ERPs and other weird things.**

**Embrolia also drew NSFW of not just him, but him and Phelo.**

i have to censor the entire left half of this image

# LYING

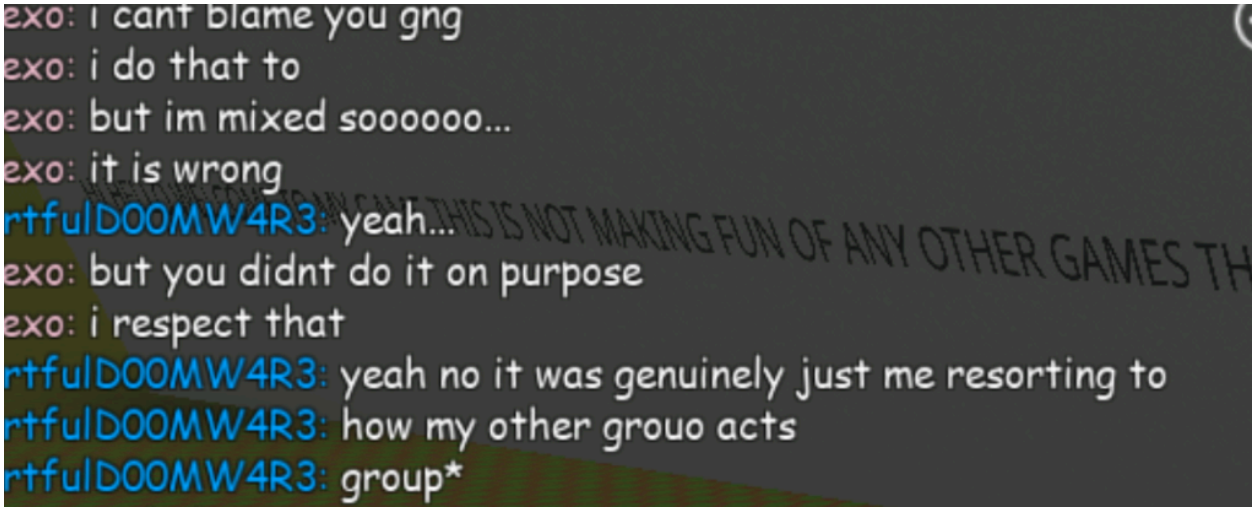

**After people found out what Embrolia did to Nash, Sleuth DMed Embrolia, telling her to explain herself, she said it wasn't her, instead, being someone else on the**

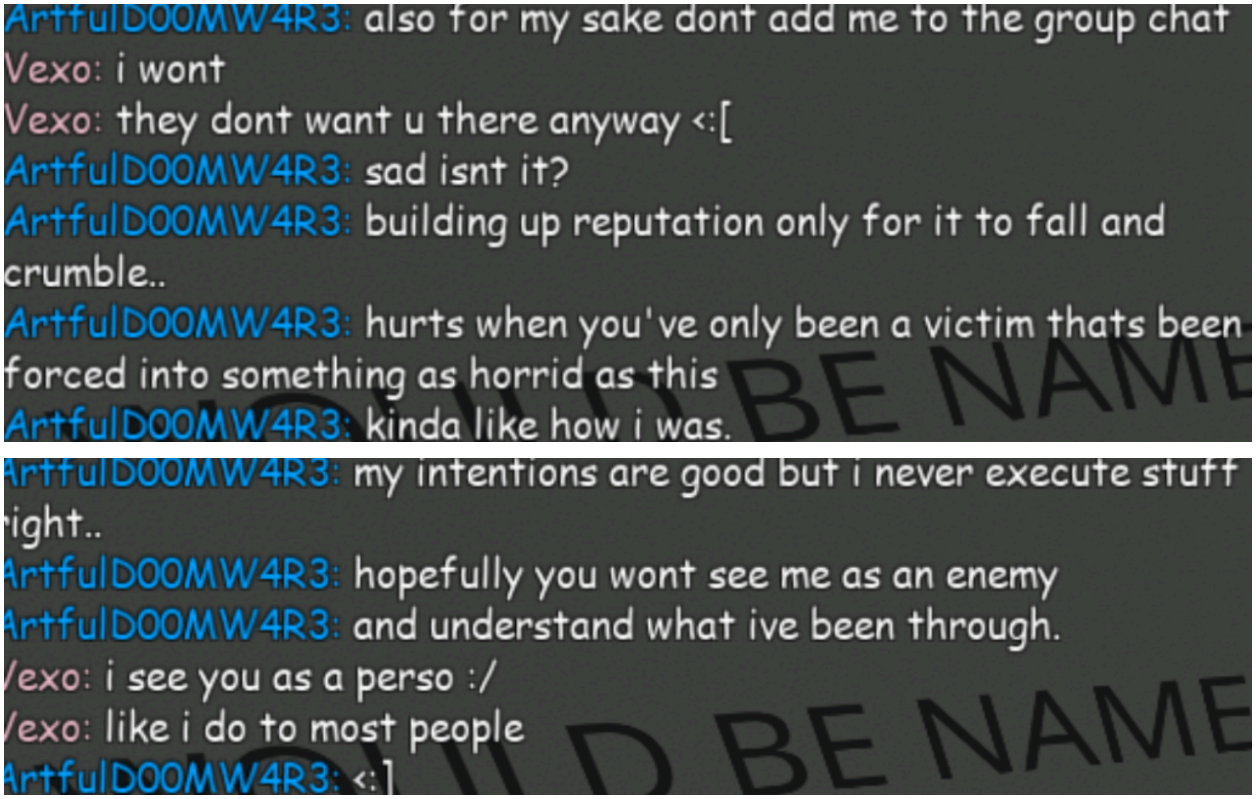

**account. This is obviously a lie.**

**To further prove this was a lie, During September, Embrolia joined Nash's joke game, made to spite her. And spread lies to one of Sleuthling's friends, Baldigamer, about the grooming. In here, she says they're all "boxed screenshots" which doesn't make any sense, because before she said it wasn't even her.**

# Fetish and smut porn of minors

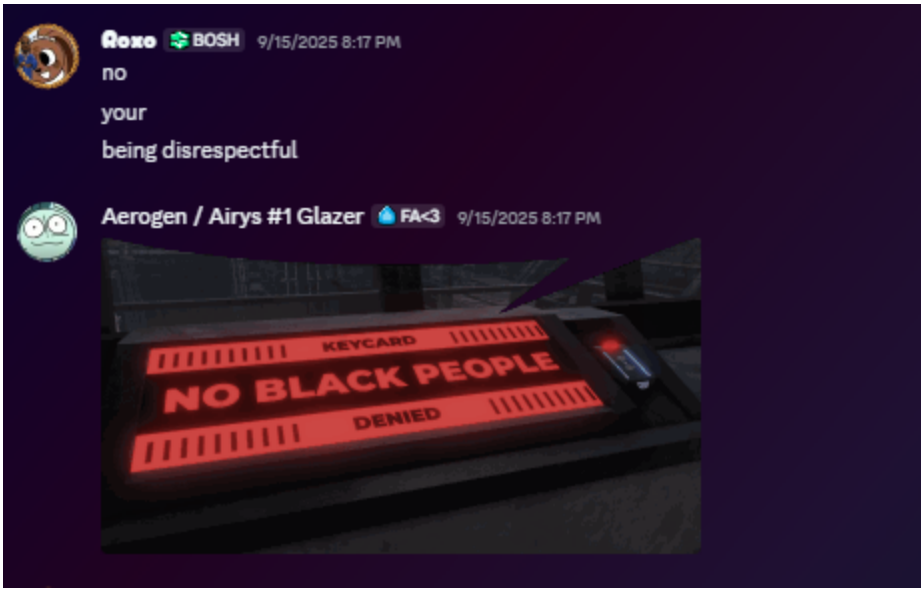

**In the middle of writing this doc, we found a doc by Embrolia and Fernando that is going to contain transfur fetish and smut porn of Zurr, Jinx, Klan and others.**

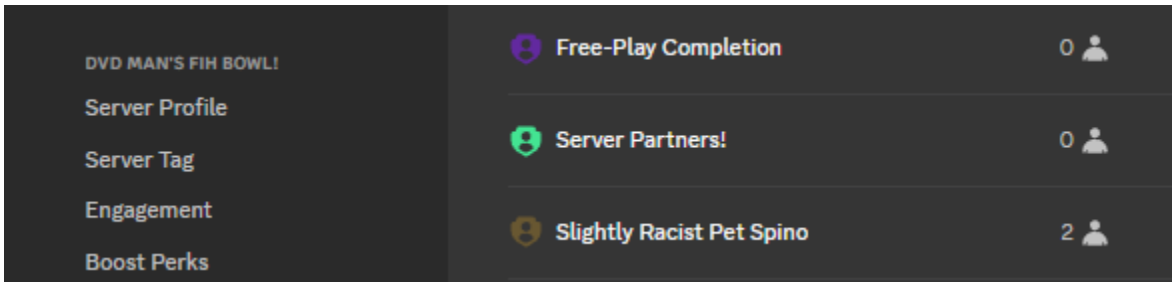

**(UPDATE: Embrolia has since gotten rid of the whole doc, If you need proof of the doc's existence, please contact Sleuthling, as mentioned at the start.)**

---

# Racist Stuff

**Screenshots of Embroila being racist.**

**(This was a role given to Embrolia in a friend server)**

# TL;DR

Embrolia is a groomer, a pedophile, a racist, and much more.
She has refused to change over the years and is still actively being weird to people. Embrolia has hurt many, many people. Stay away from her, block and report,
Do not let Embrolia in your servers, communities or whatnot. She is not safe to be around. At all.

*Thanks for reading. And to the people we might not even know of, we're so sorry this has happened. If anything listed in this document strikes something familiar in your past, it is best to go out and get help. Thanks for reading. My heart goes out to all of you.*

# Statements From Others

This section is a list of statements and thoughts from the victims of Embrolia, or people associated with said victims.

## Hazel/Supdudes

Embrolia, after all I've known and all of the information i have received from very good friends of mine, you're just awful. Pathetic even. You never even tried to change a single tiny atom of yourself because all you've done to us is lie, and lie, and constantly attempt to ruin our reputations when YOU ARE the bad one. Especially to what you've done with multiple friends of mine. You are a disgusting CREEP of a human being. Hell, by all of these fetishes you have I don't even think it's convincing enough to prove you're human. About the creep part, those times where you called us "fanboys" like the power-tripper you are. What you just called us in response of when you got flamed was weird as fuck. And finally, I'll say this: TAKE A GOOD BREAK OFF THE INTERNET. And also, get a life. Never come directly in our faces ever again. We would never want to see you again. EVER. You are a disgusting parasite, and I hope you know that. I do not care if you find the internet addicting, just GO OUTSIDE for once. I BEG OF YOU.

# Sleuthling

Hate. Let me tell you how much I've come to hate you since I've begun to live. There is an estimated population of 8,286,605,180 people. And out of all of those I've never met one of them as cruel and disgusting as you. You're an animal, a subject, a specimen. The three words that best describe you are as follows and I quote: Stink. Stank. Stunk. After these words are out and you try to attack me? Good try, I'll make your word known everywhere I can. You're the weight keeping me down, the impending doom of my friendgroup. If I happen to catch you around us again, making another bland apology, or even attempting to threaten me. I will **attack** you. I have connections. I will track you down and get you arrested for your crimes. You filthy fucking animal. Never talk to me again. You shall **never**, **ever**, **EVER** be found amongst us again. You try again? I'll make sure of it you won't. You're a monster, your heart's an empty hole, you've got garlic in your soul. You've been plaguing my life like it's your job, job? The thing that you refuse to get because *"you're still a kid"*? Come to terms with yourself. I've come to mine, and said terms are that you're a **pedophile**. You never will not be. You've made your choice in life. So I'll make mine, and my choice is: you will never be seen around me again. I've watched you for the longest time, put all my friends down and used them for your own gain. Even if it's online, I'll still manage a way to ruin you in real life. We've come a long way haven't we, you've really done something in life haven't you? Embrolia, Crusty, Rewritten_Soul, Areogen. Oh names I'm so happy and looking forward to hearing! Is what I could've said maybe one day but for you I assume that's too far. You really have made a mark, sure it's probably the worst mark you could've made, but now you're known!-As a pedophile. Sure you could say there's more than that, but that would only insult, wouldn't you say? If this must be our final communication, then I'll tell you everything. Yes, I leaked your socials, I have always been on your back, and I don't plan on leaving, even when that back is laying against a coffin. And whilst I frown on saying this outloud, I do expect that coffin to be soon. And if that's so, then the darkest, crueling, burning pit of **hell** is awaiting you. And while I would say this last year: I do not expect you to get out of it this time. And remember: there was

never a time I didn't hate you. Goodbye, Embrolia. Ever so sincere,

Sleuthling.

## Nashthefunnyguy/PementasXD

Hi Embrolia!

If the chances are correct, you're reading this, i want you to know this. *I hate you so fucking much.* My burning hatred for you is worse than any other hatred I've had for anyone I've ever known. For one whole year it's been on and off with your bullshit. You used me for your own sexual gain, played with my emotions, and tried blackmailing me into taking down all the evidence, and the two "apologies" you gave to me after you groomed me didn't mean SHIT, cause you kept fucking being creeps to people AFTER it! You won't change. Not anytime soon at least. For the love of god if you choose to start spreading shit about ANYONE involved in this doc (You've tried spreading lies about me before and spread lies about one of my best friends, i know you'll do it.) it'll be fucking over for you i swear to god. Don't think I know the time you said "Nash made porn!" as if you weren't the one who FUCKING INFLUENCED ME INTO DOING IT. The moment this doc gets out, I wish the worst for you, and I pray all the hope you once had thinking you'd get away with it all fades away. Sincerely fuck you.

# ThatPizzaTowerFan/MrsPizza

I remember being told all of this and I was so disappointed to hear about the actions you have done. Embroila, even if I was easy on you in dms, your behaviour is absolutely disgusting and is never excusable in any form. I was your friend for upwards to 5 years and to learn you did shit like this now is heartbreaking.
you are insanely lucky that i'm very forgiving. i am not saying this to say that "i forgive you", because i cannot, and will not
but the only thing i can give to you is that from this, i hope you learnt from my dms, and you respond to this with the utmost sincerity, and you take accountability for the stuff you've done, and you take a break, because you seriously hurt people. I heard Roxo was shaking when he was retelling the stuff you did to him, you broke people.
if you want a chance of being my friend again, you better improve. If you do anything rash, then you have never truly changed. Your tyranny ends now.
