

General Guidelines:

- The muse is selective. I won't rp with everyone, but you can still interact with him. This also varies. I'll take "mutuals only" for only mutuals.
- Please do not rush me! It's important to note that I work for a living, so I won't be the fastest kid on the block.
- No godmodding. I probably don't need to explain that.
- Important life changing altercations (children/romances/bodily harm) should be discussed beforehand ooc.
- Mod is 18+ and so are most of my muses, so I am down for writing adult themes. Only with 18+ and please ask.
- If you have any issue with me, please take it up with me personally and privately.
- If you send me an ask and I don't reply to it right away, please send a second time. If I don't respond then, I'm probably too tired to.

Icons/Art/Edits:

- I don't claim the art I use for my icons, but I do edit them myself. I ask you don't use them unless you have my permission.
- You can't copy/paste my headcanons or drabbles. Nor can you repost them.

Keep in mind:

- Mun \neq Muse
