

Headline Data 2021-22

Here at The Deans we are rightly proud of all of the achievements of the children at our school and do not define success simply as children passing an assessment at the end of a particular phase of education.

However, we do know that if children are happy and learning then they will achieve academically too. We are incredibly proud of the academic successes of the children and thank all of our fantastic staff for supporting the children to achieve so well.

This year's National data showed the impact of the pandemic across the country. However, we are hugely proud of our whole school and community in how we came together to keep our children learning. The impact of this hard work is clear to see when comparing the performance of our school to National Outcomes.
