General Gameplay

Times of day

In BLC there are 5 times of the day, Morning, Midday, Afternoon, Evening, and Midnight. Each time period influences characters' schedules and activities, with opportunities. Various activities can make time advance, such as completing tasks or engaging with NPCs, but you can also click the hourglass icon to progress time manually.

Chatting

To chat with characters you'll navigate through different topics. Each row presents three topics grouped together. You must choose one topic to discuss per row. However, only one of your choices per row will be correct, granting you +1 point of arousal (AP). The correct choice is randomized.

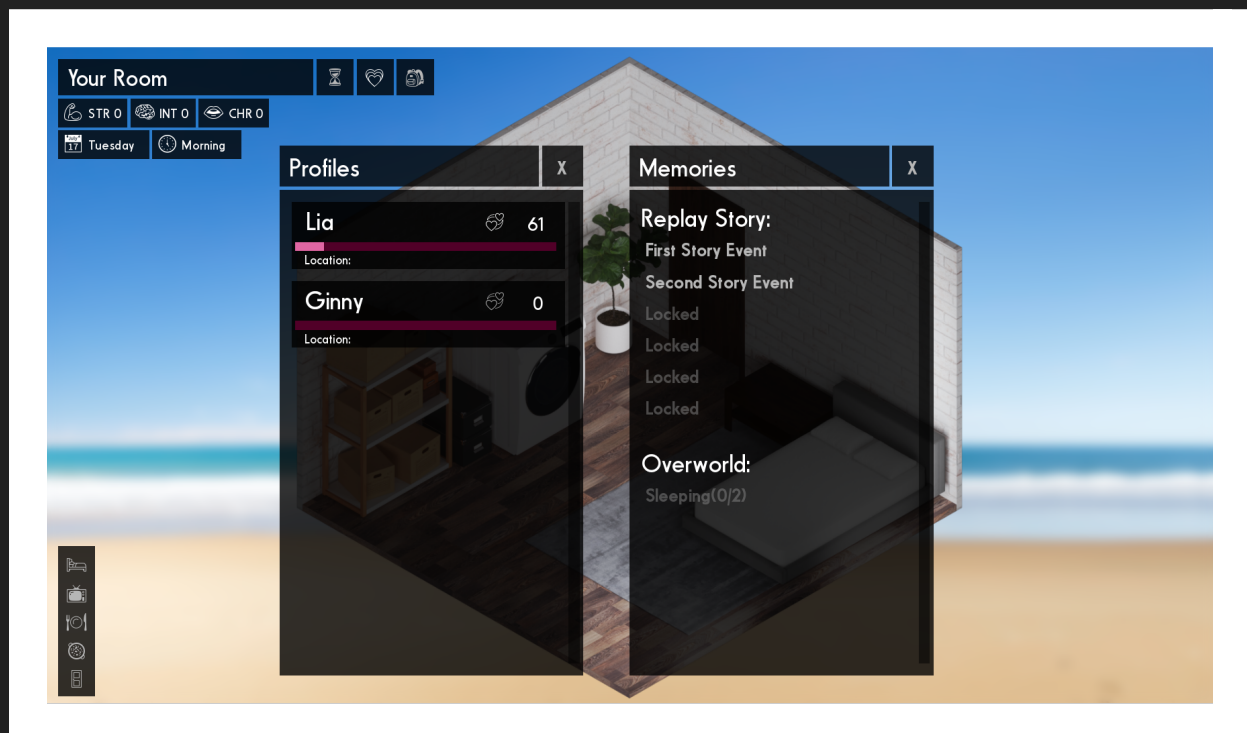

Gallery replay

Profiles offer insights into characters you've encountered, displaying their current arousal points (AP) and a heart button to access romantic scenes.

Absence of the heart button indicates no available scenes in-game yet.

Clicking the heart icon opens the Gallery, showcasing all unlocked and locked scenes. It serves as a handy tool to track missing content.
