

# **INFORMATION ABOUT FINAL EVALUATION 3RD. PERIOD**

**Period:** 3rd.

**Class:** Learning Adventures

**Type of exam:** Project (STEAM Fair)

**Date of the project:** Thursday July 30th.

**Explanation of the project:** Students will work in groups of four to design and present a scientific lapbook about one of the following topics:

- Igneous Rocks
- Sedimentary Rocks
- Metamorphic Rocks
- Deposition Experiment

Each group will build a three-panel lapbook that includes a 3D model and the six steps of the Scientific Method:

- Question
- Hypothesis
- Materials
- Procedure
- Results
- Conclusion

During the STEAM Fair, every student will present **an individual part** of the project in English.

**Required Materials:** No extra materials needed.

## **Important notes:**

1. The project will be carried out in groups assigned by the teacher; however, the grade will be individual.
2. A period for "Learning Adventures Evaluation" will appear on the Exams Schedule; during this time, we will provide feedback on the project, and students will have a self-assessment of their presentation.

**See the evaluation rubric attached below:**
