Abstract [size 10, spacing 1]

Consists of one paragraph with a number of words 150 (one hundred fifty) to 350 (three hundred fifty) words and not a summary of the article. The abstract contains a brief background of the problem and the results of the study.

Keywords: tourism law; dutch cemetery; Peneleh

Abstrak [size 10, spacing 1 in Indonesia language]

Suatu hukum dikatakan baik jika hukum berjalan sesuai fungsinya. Penerapan hukum adalah karakteristik negara hukum di mana aplikasi akan mencapai tujuan hukum yang terdiri dari keadilan hukum, kepastian hukum dan manfaat hukum. Berawal dari ini, pengembangan pariwisata di Indonesia, khususnya di pemakaman Belanda di Peneleh Surabaya tidak memenuhi UU No. 10-2009. Perkembangan ini juga dipengaruhi oleh sumber daya manusia dalam hal ini pemerintah Surabaya kurang peduli dengan keberadaan pemakaman Belanda di Peneleh Surabaya. Dengan melakukan penelitian empirisme, hasilnya masih rendah keinginan pemerintah kota Surabaya karena lokasinya tidak berada di pusat kota

Kata kunci: hukum pariwisata; pemakaman belanda; Peneleh

Introduction [size 11, spacing 1,15]

Introduction is first part of the article. It must state the background of the article. The background is provide an explanation of the legal issues that the problems raised for this writing are considered important and need to be examined, formulation of the problem, contains legal issues to be examined and the answers sought in the form of sentence questions or statements, novelty with similar research and the author displays a minimum of 3 (three) similar research data and provides novelty written to each data that has been written so that it can be seen in detail the research novelty. Similar research data can be traced through data in the form of scientific journals or the latest research results.

Method Research [size 11, spacing 1,15]

There should be a method which must be explained

Results and Discussion [size 11, spacing 1,15]

The author shows the results of the study and the results of the study are discussed comprehensively. The discussion must have a correlation with the introduction so that the discussion can have fundamental differences with similar research.³

Conclusion [size 11, spacing 1,15]

The conclusion contains the essence of the answer to the problem formulation.

References [size 11, spacing 1,15]

Using Mendelej, a minimum of 12 references, 80% in the form of research results published in scientific journals and referenced references are the results of the last ten years of publication except the classic references used as historical study material.

Acknowledgment [size 11, spacing 1,15]

Given if there are direct technical help (e.g. supply of animal subjects, cells, equipment setup, methods, statistics/data manipulation, samples, chemicals/reagents, analytical/spectroscopy techniques); indirect assistance (topical and intellectual discussions about the research which can lead to generation of new ideas); affiliated institutions; funding bodies; grant numbers; who received the funding (if not the author- e.g. a supervisor); or Any associated fellowships.
